Car and Driver

This study chronicles the success of the Japanese car in America. Starting with Japan ' s first gasoline-powered
car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese

cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they
faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun
(Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present.
An examination follows of the forced cooperation between American and Japanese manufacturers, the present
state of the industry in America, and the possible future of this union, most importantly in the race for a more
environmentally-sound vehicle.
