The Honda's low weight and compact dimensions helped imbue it with a fun-to-ride personality. In order to keep weight down, much of the CR125's chassis was constructed using aluminum -- rather than steel -- components. The switch to the lighter metal was a change that Honda

helped pioneer in the dirt-bike world.

You'll have to get a different water hose cause the outlet is angled different but it'll work. I don't think you can get a new crank for the 86' but if you go 87', you can buy it from Honda. 87'-01' are the same. A lot of things can be updated on both engines to the later CR500 "design", like the clutch, inner clutch cover, etc.
