"The Common Core State Standards (CCSS) are the first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts (ELA), as well as Literacy in History/Social Studies and Science Education, are the focus of this book.

Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills,

writing, speaking and listening, language, technology, and assessment. The objective of the chapters is twofold: to provide a theoretical background and detailed explanation of each of the CCSS/ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards" -- The Big Book of Literacy Tasks, Grades K-8 International Primary and Lower Secondary Appropriate for Language Arts courses offered in education departments in universities and colleges across Canada. Clinical Evaluation of Language Fundamentals International Primary and Lower Secondary Ready-to-go English Language Development tasks that focus on students

"doing the doing" of talking, reading, listening, and responding. In recent years, the percentage of English Language Learners (ELLs) has increased in almost every state, so most teachers are faced with the challenge of teaching literacy to students acquiring English alongside English-speaking students. However, in many integrated learning situations, English Language Development (ELD) instruction is strikingly different than the teaching we provide students whose first language is English. The Big Book of Tasks for English Language Development helps teachers meet that challenge head-on! Bestselling author and esteemed education consultant Nancy

Akhavan shows that teaching multilingual learners requires changing our instruction to focus on practices that have high impact for students as they acquire language. Yet it ' s not about doing more— it ' s about doing smarter. It ' s about having high expectations for all students and providing scaffolds to support students at all levels of English language proficiency as they learn and grow more confident. All the ready-to-go activities in the book Center on active tasks where students do the thinking, talking, reading, and writing, with appropriate support Activate the domains of language — listening, speaking, reading, and writing — and recognize that these do not develop at

the same rate Honor the continuum of language development and build on what students can do Provide teaching tools such as learning targets, suggestions for when to use a task, basic instructions and "teacher talk" for launching a task, and "Watch Fors and Work-Arounds" Focus on the linguistic assets multilingual learners bring to the classroom and provide opportunities to help them collaborate with peers With Nancy Akhavan ' s signature straightforward, teacher-friendly style, this book offers an uplifting reminder that with the right teaching strategies, educators can support multilingual learners to achieve their full potential and thrive in their learning journeys.
