How to Be Good at Science, Technology and Engineering Workbook, Grades 2-5 Workman Publishing Company

PLEASE NOTE - this is a replica of the print book, but you will be able to download printable worksheets on purchase. Perfect for children ages 5-6, this workbook reinforces early science learning. Kindergartners will become familiar with topics such as motion, light, and the properties of solids, liquids, and gases, as well as the basic needs of all animals and plants. Developed in consultation with leading educational experts to support curriculum learning, DK Workbooks: Science is an innovative series of home-learning science workbooks that is closely linked to school curriculum and helps make learning easy and fun. Each title is packed with exercises and activities to strengthen what children learn in school. With clear questions and supportive illustrations to help children understand each topic, the books provide practice to reinforce learning and understanding of key concepts, such as animal life cycles, the solar system, chemistry, and anatomy. A parents' section contains answers, tips, and guidance to provide support, and a certificate of achievement will reinforce confidence in kids by rewarding their accomplishments.

Spectrum Science, Grade 3 Daily Science

It's the revolutionary science study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace Science . . . takes readers from scientific investigation and the engineering design process to the Periodic Table; forces and motion; forms of energy; outer space and the solar system; to earth sciences, biology, body systems, ecology, and more. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only book you need for each main subject taught in middle school: Math, Science, American History, English Language Arts, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in neon colors. Definitions explained. Doodles that illuminate tricky concepts in marker. Mnemonics for memorable shortcuts. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award–winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

Florida Science Corwin Press

General Science, Grades 5 - 8 Science by the Grade

"Finally, a book with sound research and ready-to-use strategies to connect reading and science!" —Jenny Sue Flannagan, Director, Martinson Center for Mathematics and Science, School of Education, Regent University "This work shows how reading scientific texts differs from reading literary texts and describes the tools teachers need to teach reading in science." —Stephen P. Norris, Canada Research Chair in Scientific Literacy, University of Alberta "The authors address what few recognize—that reading is an issue in science, but ultimately no one is teaching students to read science." —Sally Koczan, Science Teacher, Wydown Middle School, Clayton, MO Boost students understanding of science with literacy strategies! Research has long supported the positive effects of integrating literacy practices into the science curriculum; now this helpful and timely resource offers science educators effective strategies that they can implement immediately. Teachers of students in Grades 3 – 8 will find innovative ideas—aligned with national science education standards—for incorporating language analysis and science literature into inquiry-based science classrooms. Included are activities as well as sample lessons to help students: Read and comprehend science texts Find related resources to explore particular interests Build their science vocabulary Write to learn science concepts This volume is valuable for teachers, leaders of professional development workshops, institutes, topical seminars in science and literacy, science and reading methods courses, and study groups.
