Edward Thatcher's 1919 book, "Making Tin Can Toys," provides instructions on how to construct toy trucks, boats, trains, and windmills, as well as trays, candlesticks, and biscuit cutters, all out of used tin cans.

Thatcher, an instructor of Decorative Metal Working at Columbia University's Teachers College in New York City, made clever and durable creations using simple tools and an

abundant material. His design methods were trial-tested by both 10-12 year olds and wounded World War I soldiers. The book includes over 100 helpful diagrams and black-and-white photographs.

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver

Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

"Beginning with just five feet of counter space on Coney Island in 1916, Nathan's Famous - based on the basic principles of quality ingredients, hard work and a price everyone could afford - soon stretched across the globe, launching the hotdog as an American food staple and Nathan Handwerker to national fame. But the story behind the dog is even tastier... Fleeing Eastern Europe as the shadow of WWI looms large with nothing but twenty dollars

---

in his socks, Nathan arrives in New York with the insatiable desire to make a better life, and within two years he sets up a shop of his own, hawking frankfurters for five cents at the sleepy little beach retreat of Coney Island. As New York booms, pushing trains and patrons to the shore, so too do Nathan's humble hotdogs. Within ten years he has the whole corner, and a brand as recognizable as Coca-Cola and Cracker Jack. Nathan's is famous. But with success comes difficulties, and as Nathan's two sons vie to inherit the family dynasty a story of Biblical proportions plays out, mirroring the corporatization of the American food industry. Written by Nathan's own grandson, and at once a portrait of a man, a family and the changing face of a nation through a century of promise and progress,

Famous Nathan is a dog's tale that snaps and satisfies with every page"--

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will

Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria

took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

This fascinating visual history features more than two hundred carefully selected photographs that together document the people, places, and events that have defined the city of Toms River and the surrounding area. Located on the banks of the river of the same name, Toms River was first settled in the early 1700s by loggers drawn to the dense forests on the river's banks. During the American Revolution, the village was a constant thorn in the side of the British, and it was attacked and burned to the ground in 1783. The arrival of the railroads in the late 1800s

ushered in a new age of expansion which, spurred on by the construction of the Garden State Parkway in the decade after World War II, continues to this day.

One of the most important forms of communication--intuition--is often overlooked or misunderstood by many people. In *The Gift Within Us*, author Mary Ann Bohrer explores the subject of intuition through interviews with scientists, paranormal researchers and 33 highly gifted intuitives from around

the world who share their stories in individual profile chapters. Ultimately, we learn that every individual has access to this amazing divine wisdom simply by listening to our own inner voice. The process is simple, but the rewards are profound. According to research, people are increasingly identifying themselves as "spiritual but not religious," yet they don't know how to satisfy their yearning for greater spiritual connection and understanding. In this insightful and groundbreaking book, the author outlines six simple steps to accessing our own inner voice, so that each and every one of us can tap into this incredibly powerful form of communication and divine guidance,

---

The Gift Within Us. About The Author  
Mary Ann Bohrer is a PR professional, communications specialist and intuition advocate who has interviewed some of the most gifted intuitives in the world. She has also interviewed top scientists, psi researchers, academicians and even a leading Catholic Archbishop regarding the topic of intuition, and shares her findings in The Gift Within Us that each and every one of us--regardless of religious affiliation, or whether they identify as religious at all--has access to this amazing and life-changing gift, simply by listening to our own inner voice. Editorial Reviews "In The Gift Within Us, Mary Ann really captures what it's like to be a psychic medium,

and this book shows us how to listen to our own inner voice. This intelligent book will help many people appreciate and access the spiritual world." James Van Praagh, Spiritual medium and author of Talking to Heaven, Adventures of the Soul, and The Power of Love "This direct connection has always been available to all of us. Some receive this guidance through prayer, some through meditation, and others by simply listening to their inner voice. We all have access to divine wisdom - it's just a matter of knowing and trusting that we are loved and worthy of receiving that guidance." Archbishop Harry J. Flynn, former Archbishop Emeritus of the Archdiocese of St. Paul and Minneapolis

---

"The evidence is in - intuition is real and it exists within all of us to various degrees. Mary Ann has written a powerful and engaging book that documents real life evidence for this precious gift, and underscores the benefits of listening to our own inner voice." Gary E. Schwartz, PhD, Professor of Psychology, Medicine, Neurology, Psychiatry and Surgery, University of Arizona and Author of Super Synchronicity, The Afterlife Experiments and The Sacred Promise

"Most people have had one or more extraordinary intuitive or transcendent experiences, but we quickly learn not to talk about them. They feel strange and otherworldly, so we're concerned how

others will react if we tell them our stories. This is why Mary Ann Bohrer's The Gift Within Us is such a gift. It helps to break the paradox of common experiences that no one wants to talk about, and it reminds us that these experiences are real, normal, and valuable. Highly recommended!" Dean Radin, PhD, Chief Scientist at the Institute of Noetic Sciences (IONS) and Author of The Conscious Universe, Supernormal and Real Magic
