This is the thrilling, warts-engine-oil-and-all autobiography of the only racing driver Ayrton Senna ever feared - the 200mph flawed genius of Tommy Byrne. It tells the surreal tale of a poverty-stricken Dundalk kid's rise to become the only racing driver the great Ayrton Senna ever feared - and how it all went wrong from there. For a brief moment Tommy Byrne was arguably the world's greatest driver, the motor racing equivalent of George Best and Muhammad Ali rolled into one - A racer, a thief, a raconteur. This is the story of his improbable escape, his rapid rise

and his spectacular and bizarre fall from grace. Peppared with dark humour and a cast of ridiculous characters, it is the antithesis of a fairytale - and it's all true. Hold on tight, the tale of Tommy Byrne is quite a ride - from fending for himself as the runt of a big Catholic litter in the '60s, running the gauntlet of the sectarian violence in the '70s, troubling Ayrton Senna and making it to F1 in the '80s, resorting to drugs in the aftermath and driving for a deluded billionaire madman and then gun-toting Mexicans in the '90s. It's raw, passionate, and - with Byrne's ability to tell it like it is - not for the faint-hearted.

The Everything Car Care Book Independently Published High-quality residential structures are much more than merely a series of different floor plans. First and foremost, the urban apartment house mediates between the private refuge and the public space of the city. In the process, boundaries between inside and outside are negotiated on a wide variety of scales. Housing+ focuses on investigating spatial and architectural as well as social and communicative interfaces in residential construction. The publication is divided into four chapters Urban Planning, The Ground Floor, Building Structure, and Facade to which sixty-seven international projects are assigned. These four thematic focuses are discussed comprehensively in the essays that introduce the chapters, and the individual projects are analyzed in brief under these same aspects. Comparable plans drawn especially for this book

supplement the typological descriptions. The broad spectrum of projects selected covers urban apartment block construction from towers, block structures, row houses, and gaps between buildings, to housing complexes in outlying urban areas."

A dazzling volume that gushes with the rhythms of life and language, from award-winning poet Charlie Smith. Moving through shades of darkness and light, Charlie Smith captures a refracted view of a disturbed, disintegrating world. Demo explores landscapes both natural and urban, probing the places where the two overlap. Its narrator is at once wanderer and witness, living among streets where flowers are covered with dust and smells of Mexican food and Chinese cooking fill the air. The poet finds a resurgence of life in the ruins, reminding us once again "that we don't really know what beauty is until we've looked hard at the horror that throws beauty into bright relief" (David Kirby, *New York Times*).
