This book is focused on the importance of detecting people's motivation, how they make decisions and the way the actions they take is rapidly increasing with the progress of IoT and the Connected Society. It explores how emotion-related processes are increasing in importance rapidly. The contributors move through a variety of related topics, all aimed at revealing how humans and things must increasingly interact. It indicates how strategy becomes increasingly important, particularly creating the best adaptable strategy to respond to the quickly and extensively changing situations. With engineering quickly moving from product development to experience development, and the role of emotion in engineering becoming increasingly apparent, this book offers a timely and valuable resource for engineers and researchers alike.

There are many books on the market that discuss the Toyota Production System but few that insightfully analyze its marketing strategy. Authored by former Toyota marketing executives, this is the first book of its kind to detail how Toyota's thinking habits go beyond the shop floor and influence and guide Toyota's marketing function. Toyota has expanded from a venture enterprise to one of the biggest global enterprises because of its innovative mindset (Toyota thinking habits) using Breakthrough Thinking, which supports a new philosophical approach to problem solving, turning 180 degrees away from conventional thinking. Written by Toyota's former executive managing director and founder of Breakthrough Thinking, Toyota's Global Marketing Strategy: Innovation through Breakthrough Thinking and Kaizen: Explores Toyota's "Breakthrough Thinking" Examines how Toyota conducts information gathering. Illustrates how Toyota builds and maintains its unique business culture Shows how Toyota "goes to the customer" and comprehensively studies how customers use their products Reveals Toyota's cars have become some of the biggest selling models in the USA The authors of this book explore Toyota thinking habits as well as Toyota's global marketing strategy, which, since the 1980s, has been expanding exponentially. The reader will understand the importance of thinking habits in the workplace and will know how to apply them using Toyota as the prime case study.

The first Land Cruiser appeared at about the same time as the Land-Rover. Styling changes occurred in 1952 with the modern range designated F25s and F28s. The FJ43 appeared in the mid-1960s, the 40 and 45 Series in Australia in 1967/8. The FJ55 was introduced in 1969, the 43 series continued to be made in Japan and the 40 and 45 Series had improvements made throughout the 1970s. Production of the FJ55 ceased in 1980 to be followed by the Series 60. This was only available with an in-line, six-cylinder engine of 3980cc. A generous five-seater, and good load carrier, there were few changes made to it after production commenced. This is a book of contemporary road & comparison tests, new model introductions, technical & specification data, driving impressions, of road tests, long-term reports, buying second hand. Models covered include:- FWD Pick-up, Station Wagon, LX, De Luxe, Diesel.
