Sharp Magazine September 2008 Chilton Book Company

A NSTA/CBC Best STEM Book Famous car-maker and businessman Henry Ford loved beans. And he showed great innovation with his determination to build his most inventive car--one completely made of soybeans. With a mind for ingenuity, Henry Ford looked to improve life for others. After the Great Depression struck, Ford especially wanted to support ailing farmers. For two years, Ford and his team researched ways to use farmers' crops in his Ford Motor Company. They discovered that the soybean was the perfect answer. Soon, Ford's cars contained many soybean plastic parts, and Ford incorporated soybeans into every part of his life. He ate soybeans, he wore clothes made of soybean fabric, and he wanted to drive soybeans, too. Award-winning author Peggy Thomas and illustrator Edwin Fotheringham explore this American icon's little-known quest.

Popular Mechanics Haynes Manuals N. America, Incorporated

The racing E-type Jaguar emerged from the ambition of both the racing fraternity and Jaguar enthusiasts who wanted to take this iconic British sports car onto the track to see what it would do. With official (and sometimes unofficial) help from the factory, the E-type was continually developed and modified from almost the first week that the first production car left the factory. Recognized the world over, this beautiful aerodynamic car remains as popular today as it was in the 1960s. Jaguar E-type in Competition features period photographs and stories from the E-type's early racing days, describes how the cars evolved, and gives details of the lightweights, semi-lightweights and factory specials, the Le Mans cars, the Modsports era, and the replica lightweight racing phenomena. The detailed appendices include lists of cars and drivers, book and magazine references. As the only book in its field to cover every aspect of the E-type's competitive history from 1961 until the present day, the author redresses the balance to detail the 95% of cars usually overlooked. The reader will find hundreds of previously unseen photographs and new information, providing an invaluable source of material for anyone interested in this incredible sports car.

Hyundai Santa Fe 2001 Shop Manual ???????????

Edited by a leading expert, this book delineates the successful means to prevent, identify, and manage the effects of CO poisoning. It provides new information on CO toxicity, including rehabilitation, the dissemination of information to the public, litigation involving CO poisoning, economic loss assessment, and firefighting. The book addresses the pros and cons of hyperbaric oxygen therapy and thoroughly reviews the physiological effects of acute and long term exposure to CO, as well as the neurocognitive and neurobehavioral sequelae. The only comprehensive reference on the subject, this multi-faceted guide takes an innovative look at how to identify, treat, and prevent harmful exposure to carbon monoxide.
