As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality.

There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, fess up."

If the consumer economy had a sex, it would be female. If the business world had a sex, it would be male. And therein lies the pickle. Women are the engine of the global economy, driving 80 percent of consumer spending in the United States alone. They hold the purse strings, and when they've got a tight grip on them as they do now, companies must be shrewder than ever to win them over. Just when executives have mastered becoming technology literate, they find there's another skill they need: becoming female literate. This

isn't always easy. Gender is the most powerful determinant of how a person views the world and everything in it. It's stronger than age, income, or race. While there are mountains of research done every year segmenting consumers and analyzing why they buy, more often than not it doesn't factor in the one piece of information that trumps them all: the sex of the buyer. It's stunning how many companies overlook the psychology of gender when we all know that men and women look at the world so differently. Bridget Brennan's *Why She Buys* shows decision makers how to bridge this divide and capture the business of the world's most powerful consumers just when they need it most. • *No Matter Where You Live, Women Are a Foreign Country: You'll discover the value in studying women with the same intensity that you would a foreign market.* Women grow up within a

culture of their own gender, which is often invisible to men. Brennan dissects this female culture and explains the important brain differences between men and women that may cause your female customers to notice things about your products, marketing campaigns, or sales environment that you might have overlooked.

- **The High Fives:** There are five major trends driving the global female population that are key to determining their wants and needs. These global shifts are just beginning to be tapped by businesses, and learning about them can provide you with an invaluable blueprint for long-range planning.
- **The Good, the Bad, and the Ugly:** Find out how the best and brightest companies have cracked the female code, and hear horror stories about those that haven't. Through instructive case studies and interviews, *Why She Buys* provides practical, field-proven

techniques that you can apply to your business immediately, from giants like Procter & Gamble and Toyota to upstarts like Method home-care products and lululemon athletica apparel. At a time when every company is looking for a competitive advantage, Bridget Brennan offers a new and effective lens for capturing market share.

Dale Earnhardt Jr. 's only authorized book revealing the inside track on his final year of racing and retirement from the driver 's seat. " Time was running out on my charade... My secrets were

about to be exposed to the world.” It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn’t know was that it would also end his driving for the year. He’d dealt with concussions before, but concussions are like snowflakes, no two are the same. And recovery can be brutal, and lengthy. When NASCAR star Dale Earnhardt Jr. retired from professional stock car racing in 2017, he walked away from his career as a healthy man. But for years, he had worried that the worsening effects of multiple racing-related concussions would end not only his time on the track but his ability to live a full and happy life. Torn between a race-at-all-costs culture and the fear that something was terribly wrong,

Earnhardt tried to pretend that everything was fine, but the private notes about his escalating symptoms that he kept on his phone reveal a vicious cycle: suffering injuries on Sunday, struggling through the week, then recovering in time to race again the following weekend. For the first time, he shares these notes and fully reveals the physical and emotional struggles he faced as he fought to close out his career on his own terms. In this candid reflection, Earnhardt opens up about his frustration with the slow recovery, his admiration for the woman who stood by him through it all, and his determination to share his own experience so that others don’t have to suffer in silence. Steering his way to the final checkered flag of his storied career proved to be the most challenging race

and most rewarding finish of his life.
