COBOL Veloce Publishing Ltd

Particularly since the 1950s, cars and popular music have been constantly associated. As complementary goods and intertwined technologies, their relationship has become part of a widely shared experience-one that connects individuals and society, private worlds and public spheres. Popular Music and Automobiles aims to unpack that relationship in more detail. It explores the ways in which cars and car journeys have shaped society, as well as how we have shaped them. Including both broad synergies and specific case studies, Popular Music and Automobiles explores how attention to an ongoing relationship can reveal insights about the assertion and negotiation of identity. Using methods of enquiry that are as diverse as the topics they tackle, its contributors closely consider specific genders, genres, places and texts.

Market Research Handbook Sumanta Soren

"When I see an Alfa Romeo, I lift my hat." Henry Ford Few things ignite such reverence as a classic car. With more than 250 iconic models from the 1940s to the 1980s, photographed from every angle, this title is a glorious celebration of the stars in the classic car firmament. Edited by award-winning automotive journalist Giles Chapman, Classic Car brings you the story of more than 20 great marques, including household names Bentley, Mercedes, Ferrari, Cadillac, and Aston Martin. Its lavish photography reveals every detail in close-ups of models that range from the 1940s giant two-ton Daimler DE36, which ferried royals about in style, through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier. It puts you in the driving seat of such icons as the Chevrolet Corvette, the Ford Thunderbird, and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers. Whether you dream of owning one of these super-cool cars or you are a collector already, Classic Car is set to become a treasured favorite.

Vehicle Electronics to Digital Mobility University-Press.org

Various factors in the automotive sector have combined to create a favourable climate for the development of materials and fabrication techniques for polymer-based composite body panels and structures. The cond104 in which composites are used within the automotive industry has been reviewed in this report and those materials and processes that are used in the fabrication of components and structures are described in detail. For this reason, this report is essential reading for the composites, plastics industries and the land transport/automotive sectors. An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database gives useful references for further reading.
