Some of the finest writing and reporting on the events of September 11 was done by Der Spiegel, Germany's magazine of record. With its main office in Hamburg, base of operations for terrorist ringleader Mohamed Atta and many of the others, Der Spiegel's journalists were on the front lines of the earliest investigation into the identities of those who brought holy war to America. The award-winning team from Spiegel was also at Ground Zero, talking to people, gathering stories, interviewing survivors, seeking the words that might express the interconnections of horror and heroism. The words come from those who had been inside and somehow gotten out. Inside 9-11 gives us some of their accounts, taking us as close as we can get to what happened. The "why" of September 11 may

remain beyond understanding. But here we learn who the terrorists were, and how they were able to take so many innocent lives by sacrificing their own. The profiles in this book render a chilling, alien mindset that has become part of our daily reality. Combining first-class investigative journalism and writing of great clarity, Inside 9-11 is a heartbreaking and gripping reconstruction of the events that changed us all. Translated from the German by Paul De Angelis and Elisabeth Kaestner, with contributions from Margot Dembo and Christopher Sultan.

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and

moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

carries out “ [a] searching examination of the social, political and economic dimensions of the prevailing racial order ” (Michelle Alexander, author of *The New Jim Crow*). In this winner of the Lannan Cultural Freedom Prize for an Especially Notable Book, Keeanga-Yamahtta Taylor “ not only exposes the canard of color-blindness but reveals how structural racism and class oppression are joined at the hip ” (Robin D. G. Kelley, author of *Freedom Dreams*). The eruption of mass protests in the wake of the police murders of Michael Brown in Ferguson, Missouri, and Eric Garner in New York City have challenged the impunity with which officers of the law carry out violence against black people and punctured the illusion of a post-racial America. The Black Lives Matter movement has awakened a new generation of activists. In this stirring and insightful analysis, activist and scholar Keeanga-Yamahtta Taylor surveys the historical and contemporary ravages of racism and the persistence of structural inequality, such as mass incarceration and black unemployment. In this context, she argues that this new struggle against police violence holds the potential to reignite a broader push for black liberation. “ This brilliant book is the best analysis we have of the #BlackLivesMatter moment of the long struggle for freedom in

America. Keeanga-Yamahtta Taylor has emerged as the most sophisticated and courageous radical intellectual of her generation. ” —Dr. Cornel West, author of *Race Matters* “ A must read for everyone who is serious about the ongoing praxis of freedom. ” —Barbara Ransby, author of *Ella Baker and the Black Freedom Movement* “ [A] penetrating, vital analysis of race and class at this critical moment in America ’ s racial history. ” —Gary Younge, author of *The Speech: The Story Behind Dr. Martin Luther King Jr.'s Dream*
