Saddam Hussein and Usama Bin Laden... Saddam and the 9/11 attacks, There's no shortage of ties between the two. There was a relationship, but there's no concrete evidence of a collaborative relationship to 9/11. of confusion about Saddam and Bin Laden, and how close there were or were not. The smoke left by shadowy terrorists, Iraqi Intelligence Services agents, Western spies, and anonymous international media sources makes the haze even more impenetrable. Adding to this blindness is the curtain of political partisanship that was cast over the issue by both sides in the 2004 Presidential campaign. So what is the truth? reports, bi-partisan investigations, hundreds of media and literary sources, newly discovered documents found in post-war Iraq, interrogation reports of Saddam and captured senior Al Qaeda leaders. Coupled with the 20-20 hindsight vision of history and reports secured through the Freedom of Information Act, this book shows very clearly what is known, what the public is allowed to know, and not only allows readers to make their own assessments, but encourages just that.

A remarkable collection of first-hand accounts written by soldiers, doctors and aid workers on the front lines of Canada's war in Afghanistan. Visceral, intimate and captivating in ways no other telling could be, *Outside the Wire* features nearly two dozen stories by Canadians on the front lines in Afghanistan, including the previously unpublished letters home of Captain Nichola Goddard, the first female NATO soldier killed in combat, and an introductory reflection by Roméo Dallaire. Collected here are stories of battle and the more subtle engagements of this little-understood war: the tearful farewells; the shock of immersion into a culture that has been at war for thirty years; looking a suicide bomber in the eye the moment before he strikes; grappling with mortality in the Kandahar Field Hospital; and the unexpected humour that leavens life in a warzone. Throughout each piece the passion of those engaged in rebuilding this shattered country shines through, a glimmer of optimism and determination so rare in multinational military actions – and so particularly Canadian. In *Outside the Wire*, award-winning author Kevin Patterson and co-editor Jane Warren have rediscovered the valour and horror of sacrifice in this, the definitive account of the modern Canadian experience of war.

The War in Iraq, the 2000 Election Debacle, the Monica Lewinsky Affair, and so many other pivotal events shaped the American experience in the 21st Century. This book takes the timelines for these critical events (and MANY more), and then it meshes them together for a historical perspective. They say "Hindsight is 20-20," and as such, readers can now see those events in the context of their times, and not the context of a politically-charged opinion piece. Here and now, readers can view the entire American experience in Iraq from President Bush Sr.'s 9/11/90 address to Congress (in which he declared the start of a New World Order), through the wars, the inspections, the repeated air campaigns, the failed diplomacy, and finally to Saddam's capture. There are also specific sections showing never-before seen timelines of The Ignored War over the No-Fly Zones in Iraq, and the growth of Al Qaeda in the New World Order. Events which continue to be viewed in a political perspective had a historical effect and not just a political effect.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
