Comsumer Guide Complete Guide to Used Cars 1989 ABC-CLIO

The newly revised fourth edition of The Standard Catalogue of American Cars, 1946-1975 is the most complete post World War Two automobile book ever assembled. Ron Kowalke brings together the top minds in car collecting to deliver a one-of-a-kind source for identifying, buying, selling or simply enjoying American cars from 1946-1975. By using this book, you'll join auctioneers, insurers, hobbyists, investors, car dealers, restorers and other collectors in the pursuit of some of the best cars America ever produced. From the big automakers in Detroit to the small one-car wonders from New Jersey to California, more than a thousand listings of individual models help you to make critical restoration, buying and selling decisions and help

you to avoid making an expensive mistake.

The Gold Book Checkerbee Pub

From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955–1957 Chevrolets, the “Forward Look” Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company’s models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.
