Known to millions as J.Lo, Jennifer Lopez is one of the most prominent Latin American performers in the world. She has been called the most influential Hispanic entertainer in the United States by People en Español. As an actress, singer, songwriter, dancer, and fashion designer, Lopez has a reputation for being a perfectionist and a demanding diva. But this dedication has paid off financially. According to Forbes, she is one of the richest Latino performers in the United States and ranked thirteenth on Forbes's 2019 list of the highest-paid women in entertainment. Read about this one-woman entertainment powerhouse in this full-color biography.

*Field and Stream*

2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation.

---

Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.
