Maintenance,  
Repair ...

The original  
Mazda Miata,  
1990-1993, used a  
refrigerant gas  
called R-12. The  
gas works very  
well in A/C  
systems, but is  
quite hard on the  
atmosphere. With  
time, refrigeration  
systems moved on  
to a more  
environmentally

friendly gas called  
R-134.

1993 Mazda Miata  
Fuse Box Diagram |  
Fuse Box And Wiring

...

The factory ignition  
wires on the Miata  
only seem to last  
between 30,000 and  
50,000 miles. If you  
are experiencing  
misfiring and  
hesitation and you  
haven't changed your  
wires, this is most  
likely the cause.

Change the wires! In  
case you forget which  
plugs is which, refer  
to the firing order  
diagram below.
