The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. Named a Best Book of the Year by the Seattle Times and Kirkus Review The final novel from a great American storyteller. Donal Cameron is

being raised by his grandmother, the cook at the legendary Double W ranch in Ivan Doig's beloved Two Medicine Country of the Montana Rockies, a landscape that gives full rein to an eleven-year-old's imagination. But when Gram has to have surgery for "female trouble" in the summer of 1951, all she can think to do is to ship Donal off to her sister in faraway Manitowoc, Wisconsin. There Donal is in for a rude surprise: Aunt Kate—bossy, opinionated, argumentative, and tyrannical—is nothing like her sister. She henpecks her good-natured husband, Herman the German, and Donal can't seem to get on her good side either. After one contretemps too many, Kate packs him back to the authorities in Montana on the next Greyhound. But as it turns out, Donal isn't traveling solo: Herman the German has decided to fly the coop with him. In the immortal American tradition, the pair light out for the territory together, meeting a classic Doigian ensemble of characters and having rollicking misadventures along the way. Charming, wise, and slyly funny, *Last Bus to Wisdom* is a last sweet gift from a writer whose books have bestowed untold pleasure on countless readers.

*Drawing Futures* brings together international designers and artists for speculations in contemporary drawing for

art and architecture.Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. *Drawing Futures* will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie.*Drawing Futures* focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Originally published just months before the May 1968 upheavals in France, Raoul Vaneigem's *The Revolution of Everyday Life* offered a lyrical and aphoristic critique of the "society of the spectacle" from the point of view of individual experience. Whereas Debord's masterful analysis of the new historical conditions that triggered the uprisings of the 1960s armed the revolutionaries of the time with theory, Vaneigem's book described their feelings of desperation directly, and armed them with "formulations capable of firing point-blank on our enemies." "I realise," writes Vaneigem in his introduction, "that I have given subjective will an easy time in this book, but let no one reproach me for this without first considering the extent to which the objective conditions of the contemporary world advance the cause of subjectivity day after day." Vaneigem names and defines the alienating features of everyday life in consumer society: survival rather than life, the call to sacrifice, the cultivation of false needs, the dictatorship of the commodity, subjection to social roles, and above all the replacement of God by the Economy. And in the second part of his book, "Reversal of Perspective," he explores the countervailing impulses that, in true dialectical fashion, persist within the deepest alienation: creativity, spontaneity, poetry, and the path from isolation

to communication and participation. For “To desire a different life is already that life in the making.” And “fulfillment is expressed in the singular but conjugated in the plural.” The present English translation was first published by Rebel Press of London in 1983. This new edition of *The Revolution of Everyday Life* has been reviewed and corrected by the translator and contains a new preface addressed to English-language readers by Raoul Vaneigem. The book is the first of several translations of works by Raoul Vaneigem that PM Press plans to publish in uniform volumes. Vaneigem’s classic work is to be followed by *The Knight, the Lady, the Devil, and Death* (2003) and *The Inhumanity of Religion* (2000).
