Standard Catalog of Pontiac, 1926-2002 Motorbooks

This is the story of a Grand Prix formula that no British constructor wanted but which became one that they would almost totally dominate. It has remained largely overlooked due to the perception that the cars were underpowered and hence unspectacular. Such a perception ignores the significant technical developments that took place that are now taken for granted, such as monocoque chassis construction. It saw the career of Stirling Moss come to a premature end, but in his absence the rise to prominence of a new breed of British drivers in Jim Clark, Graham Hill and John Surtees. Over 200 photos

and contemporary technical material outline the engineering achievements as well as the exploits of the constructors. With a foreword by Raymond Baxter.

The Racers: How an Outcast Driver, an American Heiress, and a Legendary Car Challenged Hitler's Best (Scholastic Focus) Veloce Publishing Ltd

The myth that Alec Issigonis conceived the Mini is just one whisp of the smoke screen that obscures the untold story of post-War Britains greatest industrialist. This is more than a motoring story. You will find commentary on life in the first half of the 20th century as you explore the drama of one mans determination to overcome adversity.

Someone who shot from the hip as no other tycoon. This is a tale of political and military intrigue. Of spectacular business acumen. Of bitter, violent, industrial conflict. An account of savage jealousies and sexual intrigue. To record the life of Leonard Lord the author has visited a vast number of sources. In recent times some have sought to implant the roots of the British motor industrys ills and ultimate collapse in the policies of Leonard Lord. This is both disingenuous and unjust. This, for the first time, is his story.

Ferrari Veloce Publishing Ltd

A comprehensive, radical look at the history and development of the Type 57 Grand Prix Bugattis. New material challenges traditional beliefs about these historic cars, and rejects some long-standing conventions. Myths are explored and truths are revealed in a book celebrating all aspects of these remarkable cars and their creators.

Tyretch 98 Springer

Gregory Cagle was a 10-year-old car fanatic when his family moved from New Jersey to Germany in 1956. For the next five years he photographed unusual, rare and sometimes

bizarre automobiles throughout Europe. This book features 105 specimens of auto exotica, captured with Cagle's Iloca Rapid-B 35mm camera--not showpieces in museums but daily drivers in their natural habitats. In the background can be glimpsed, here and there, the mood of postwar Europe. The story behind each photo is told, with dates and locations, information and history about the cars and some of their owners, along with Cagle's personal anecdotes.

The Autocar Veloce Publishing Ltd

F1 Mavericks is the story of the grandest, most influential, and most fondly remembered era in Formula 1 racing as seen through the lens of master motorsports photographer, Pete Biro. The period from 1960 to 1982 saw the greatest technological changes in the history of Formula 1 racing: the transition from front engines to rear engines, narrow-treaded tires, massive racing slicks, zero downforce, and neck-wrenching ground effects--and, of course, a staggering increase in performance and reduction in lap times. In short, the period saw the creation of the modern Formula 1 car. This is also the time when legendary names who defined F1 were out in full force: Jim Clark, Jack Brabham, Dan Gurney, Sir Jackie Stewart, Graham Hill, Niki Lauda, James Hunt, Bruce McLaren, Jody Scheckter. We'll see and meet all of them. But F1 Mavericks also focuses on the designers and engineers behind the cars--men like Colin Chapman, Sir Patrick Head, Maurice Philippe, Franco Rochhi, Gordon Murray, and many others. We'll hear directly from many of them, including a foreword from

1978 F1 World Champion, Mario Andretti. Every chapter is a photographic account of key races throughout the period, supplemented with sidebars featuring key designers and technologies, like wings, ground effects, slick tires, turbochargers, and the Brabham "fan" suction car. F1 Mavericks is an international story, and includes loads of information on designs from Japan (Honda), Britain (McLaren, Tyrrell, Cooper, BRM) Italy (Ferrari, Maserati, Alfa Romeo), France (Matra, Ligier, Renault), Germany (Porsche, BMW) and the United States (Eagle, Shadow, Penske, Parnelli). Strap yourself in for the story of the greatest era in Formula 1 racing—it's all here in F1 Mavericks.

Chevy Small-Block V-8 Interchange Manual, 2nd Edition Penguin

The Complete Book of Ducati Motorcycles, 2nd Edition updates the story, racing successes, and models offered by Italy's greatest motorcycle manufacturer.

Popular Science McFarland

Stunning photographs from motor racing history, most previously unpublished, in a book that examines the many facets of Grand Prix racing before the dominance of television.

Black Noon: The Year They Stopped the Indy 500 Guinness Superlatives

In 1960, Colin Chapman sought to identify the most straightforward and uncomplicated way of building a Formula 1 car. The result was his first rear-engined design, the trendsetting Lotus 18. This book charts the 18's competition history, from its inception, up to 1966 - via sensational victories over Ferrari at Monaco and the Nürburgring.

Scenes from an Automotive Wonderland Veloce Publishing Ltd

In 1964, Chrysler offered an optional V-8 with its popular Dodge Valiant. Banking on the resulting success of this option

package, Chrysler went on to release a decade worth of low-priced, high-performance muscle cars based on the "A-body" Valiant, including the Dodge Dart GT and GTS, the Swinger 340, and the Demon, as well as the Plymouth Duster. Today, these cars' phenomenal sales figures translate to a thriving Dart and Duster enthusiast scene. Color photography of restored and factory-original vehicles, along with archival black-and-white images, are accompanied by an authoritative history examining the development of the cars. In addition to model histories for each, there are in-depth discussions of vehicle design and production, driving impressions, accessories and options, popular performance upgrades of the period, and the cars' successful histories at the drag strip.

Return to Glory! Motorbooks International

The path of Grand Prix racing in America wound through raceways at Sebring, Riverside, Watkins Glen, Long Beach, and finally Caesars Palace in Las Vegas. At each stop, the influence of organized crime seemed no more than a handshake away. But at Caesars the vast crime syndicate appeared deeply involved in the operations of the luxury-branded resort. The Caesars Palace Grand Prix then culminated in an unholy alliance of the world capital of gambling, the mob, and the international czar of Formula One. During its four-year run of successive Formula One and CART IndyCar events, the race hosted the biggest names in motorsport--Mario Andretti, Bernie Ecclestone,

Roger Penske, Chris Pook, Alan Jones, Nelson Piquet, Niki Lauda, Danny Sullivan, Bobby Rahal and Al Unser among them. The podium celebration of the inaugural Grand Prix put the convergence of alleged organized crime influences and auto racing on public display, while the years that followed provided their own curiosities. This book traces the intertwined threads through decades of accounts, extensive interviews, and the files of the FBI.

BMW M Motorbooks

100 heroes from almost 100 years of motor sport are covered in this book. Revealing the determination, heroism, raw courage, skill at the wheel - and just plain humanity - that has elevated men and women into the special, rarified atmosphere of heroism.

Caesars Palace Grand Prix McFarland

Winner of the 2014 Dean Batchelor Award, Motor Press Guild "Book of the Year" Before noon on May 30th, 1964, the Indy 500 was stopped for the first time in history by an accident. Seven cars had crashed in a fiery wreck, killing two drivers, and threatening the very future of the 500. Black Noon chronicles one of the darkest and most important days in auto-racing history. As rookie Dave MacDonald came out of the fourth turn and onto the front stretch at the end of the second lap, he found his rear-engine car lifted by the turbulence kicked up from two cars he was attempting to pass. With limited steering input, MacDonald lost control of his car and careened off the inside wall of the track, exploding into a huge fireball and sliding back into oncoming traffic. Closing fast was affable fan favorite Eddie Sachs. "The Clown Prince of Racing" hit MacDonald's sliding car broadside, setting off a second explosion that killed Sachs instantly. MacDonald, pulled from the wreckage, died two hours later. After the track was

cleared and the race restarted, it was legend A. J. Foyt who raced to a decisive, if hollow, victory. Torn between elation and horror, Foyt, along with others, championed stricter safety regulations, including mandatory pit stops, limiting the amount a fuel a car could carry, and minimum-weight standards. In this tight, fast-paced narrative, Art Garner brings to life the bygone era when drivers lived hard, raced hard, and at times died hard. Drawing from interviews, Garner expertly reconstructs the fateful events and decisions leading up to the sport's blackest day, and the incriminating aftermath that forever altered the sport. Black Noon remembers the race that changed everything and the men that paved the way for the Golden Age of Indy car racing.
