Drawing on numerous Japanese and non-Japanese primary and secondary sources, this highly informative book analyzes all aspects (both domestic and international) of foreign direct investment made by Japan's multinational corporations in Asia, the

European Union, and the U.S. It covers the critical period from 1970 -- the point at which Japan's economy reached a level of global importance -- through 1998 -- the nadir of Japan's economic woes. The book offers numerous perspectives to explain the changing characteristics of Japan's FDI practices over the period. The text is well supported by some 50 figures and data tables compiled from both Japanese government ministries and multinational corporations.

Each year car manufacturers release new production models that are unique and innovative. These cars begin as concepts then go through the process of prototyping. The process of creating a new model can take years, involving extensive testing and refining of aerodynamics, safety, engine components, and vehicle styling. The production model is the result of this lengthy process, and its new technologies reflect the latest engineering standards as well as market trends. The 2014 Passenger Car Yearbook details the key engineering developments in the passenger vehicle industry of the year. Each new car model is profiled in its own chapter with one or more articles that were previously published and written by the award-winning editors of Automotive Engineering International. The novel engineering aspects of each new model are explored in depth. Interviews with key developers and engineers are included for some of the models, providing inside details about how initial ideas evolved in the cars that consumers drive. Published for enthusiasts who are interested in new car models and their technologies, as well as

practicing automotive engineers who are interested in new engineering trends such as hybrid systems, powertrain designs, automotive design, lightweighting, and materials, and new engineers who want an overview of current trends, the 2014 Passenger Car Yearbook also:

- Provides a single source for information on the key engineering trends of one year.
- Allows the reader to skip to chapters that cover specific car models that interest them, or read about all models from beginning to end.
- Makes for dynamic reading, with its large number of big, full-color images and easy-reading magazine format.

East Asia is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the inter-play of various integrative economic, political and socio-cultural processes. Fully updated and revised throughout, this new edition explores the various ways in which East Asian regionalism continues to deepen. The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years including: Growing tensions in the region over maritime territory and historical issues Competing regional free trade agreement negotiations The impact of the global financial crisis on financial co-operation and engagement with global governance Obama's 'pivot to Asia' and developments in US relations with East Asia The influence of new technology and social media on micro-level regional relations The growing importance of 'new diplomacy' issues such as energy security, climate change, food security and international migration. Key pedagogical features include: end of chapter 'study questions' case studies that discuss topical issues with study questions also provided useful tables and figures which illustrate key regional trends in East Asia Extensive summary conclusions covering the chapter's main findings from different international political economy perspectives. East Asian Regionalism is an

essential text for courses on East Asian regionalism, Asian politics and Asian economics.

excerpt: Where are you from? "Kentucky," I say.

I'm from a place where people still stop for funerals, where they know who your grandmother was, where they tell stories at Corn Island at the state park at the dinner table where they pass on their youngest's outgrown clothes and bring a casserole as soon as someone dies. --George Ella Lyon
