*Language and Media* Industrial Press Inc.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with

---

activities, study questions, samplescholars in the field, such as Jan analyses, commentaries, and key readings—all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections—introduction, development, exploration, and extension— which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. This revised second edition of Language and Media: Provides an accessible introduction and comprehensive overview of the major approaches and methodological tools used in the study of language and media. Focuses on a broad range of media and media content from more traditional print and broadcast media formats to more recent digital media formats. Incorporates practical examples using real data, including newspaper articles, press releases, television shows, advertisements (print, broadcast, and digital), blogs, social media content, internet memes, culture jamming, and protest signs. Includes key readings from leading

Blommaert, Sonia Livingstone, David Machin, Martin Montgomery, Ruth Page, Ron Scollon, and Theo van Leeuwen. Offers a wide range of activities, questions, and points for further discussion. The book emphasises the increasingly creative ways ordinary people are engaging in media production. It also addresses a number of urgent current concerns around media and media production/reception, including fake news, clickbait, virality, and surveillance. Features of the new edition include: Special attention on 'new media' forms such as websites, podcasts, YouTube videos, social media sites, and mobile apps such as Snapchat and Instagram; Additional material on: mobility and materiality in media, memes and virality, discourse processes in media production, collaborative production and user created content, reality TV, fake news, the role of algorithms and bots in media production and circulation, and media and resistance; Discussion of media surveillance, privacy boundaries, and the so-called 'right to be forgotten'

related to Internet archiving; Brand new readings from key scholars in the field including Piia Varis, Jan Blommaert, Monika Bednarek and Martin Montgomery; Updated examples and references throughout, to reflect more contemporary issues. Written by three experienced teachers and authors, this accessible textbook is an essential resource for all students of English language and linguistics.

Written primarily for those responsible for the reliability of equipment and the production operation, this innovative book centers on developing and measuring true Overall Equipment Effectiveness (OEE). The author demonstrates that

---

true OEE correlates with factory output, provides a methodology to link OEE with net profits that can be used by reliability managers to build solid business cases for improvement projects, and draws on his own experience by presenting successful improvement applications in every chapter. Additionally, it will also help practitioners better understand Total Productive Maintenance (TPM) and develop an effective foundation to support Reliability-Centered Maintenance (RCM).
