This Journal is unlike all our others because it includes a daily "picture study" and more opportunities for blooming writers to develop writing skills. This journal would be a good choice for an older student who enjoys storytelling and can read and write on a 4th grade level or higher. Now your child can turn any stack of books into a homeschooling curriculum. This handbook is an activity book and daily journal that allows your student to have a customized education without creating a lot of extra work for parents. Many students are more interested in real books than in textbooks! This is an excellent way to help your students to develop their talents, interests and deepen their knowledge of topics that are meaningful to them. Just visit the library and bring home 6 to 9 great books! Each workbook includes 30 Lessons, with 10 pages for each lesson, providing four hours of guided learning time. This homeschooling handbook was created by Sarah Janisse Brown, a dyslexia therapist and game designer with ten children. Sarah has over 25 years of homeschooling experience. This curriculum handbook is wonderful for busy families. If you have babies and toddlers who need a lot of attention the older children can use this journal for everything, except math. This workbook is appropriate for dyslexic students, it includes Art & Logic Games to help with dyslexia, and uses the Open Dyslexic Font for easy reading. This book can be used as a handbook for: Delight Directed Learning, Documenting Your Unschooling Journey, Charlotte Mason Inspired Homeschooling, Eclectic Homeschooling, Classical Homeschooling and Fun-Schooling. Physical Science Createspace Independent Publishing Platform

Do It Yourself Homeschooling Handbook Library Based Curriculum Journal and Study Guide For Eclectic High-School Students 496 Page Handbook and Portfolio. Normal Price \$49.60 SALE! This Teen Journal will give your son the freedom to pick and choose his own schoolbooks, give him the guidance he needs and minimal help from an adult. Complete 12 pages a day and the journal will last 6 weeks! This journal covers science, history, English/Grammar, Nature Study, Spelling, Creative Writing, Economics and Finance, all you need to add is a math program. Activities Include: Daily Summaries: each day your teen will write a paragraph or summarize what he learned using the activity pages in his journal. Instead of having your child answer questions or fill-in-the blanks he'll summarize and tell back via writing what he learned. Start Your Day! - this page has space for your teen to write the date, a verse or quote and a prayer list. It also instructs your child to choose four books from their stack for reading that day. Reading Time - this page will have your teen write a summary from one of their books and illustrate it. Drawing Time - this is a fun page. Your teen will add something to an illustration. Science Page - after your teen reads about science either from a library book or textbook he will have the opportunity to write what he learned and illustrate it as well. History Page - once done with reading about history your teen can make a mini timeline and write about someone or place in time that he learned about. A great way to document what he's learning. Math, Finance, & Economic: My Notes - your teen can use this to write math problems or jot down what they are learning about in finance and/or economics. Copywork - have your teen copy something that stood out to him or an interesting paragraph. English Page - instead of answering English/grammar questions, have your teen tell back what he learned. This is a great way to remember what was learned. If your child is studying a foreign language like Latin, have him tell you via the English page what grammar concept he learned. Nature Study - this page gives your son a

chance to go outside and draw what he sees, whether it's the house next door or a beetle on the back porch. He can also write something about it too like a fun fact, something silly, or his thoughts about what he saw and illustrated. Spelling Time - your son can choose a letter and find words that either start or end with it but to make it more challenging he'll have to find five nouns, compound words, adjectives, verbs, and proper nouns. Once he finds the words he can write a story, poem, song, or play using the words. He can make silly sentences or try using as many words in one sentence too! He'll also get to illustrate it or make a comic about it using the boxes (strip) below. Film Study - watch an educational film, tutorial, or documentary and write a review about it, draw a few scenes, and rate it! This is a great way to document what your teen is learning in a fun way that doesn't boggle him down with nonsense like answering a lot of questions in a workbook that he'll soon forget. Instead your child can use real books or audiobooks for science & history, books that they have picked out and want to read! This Do-it-Yourself Homeschool Journal is great for teens with Dyslexia, Asperger's Syndrome, ADHD, and other learning challenges. Sarah Janisse Brown is a dyslexic therapist and creator of Dyslexia Games (www.dyslexiagames.com). Sarah has helped many moms Flip to Fun-Schooling using her Curriculum Journals. This homeschooling journal is great for busy families, unschoolers, eclectic learners, Charlotte Mason inspired, and delight directed learners. Even some textbook moms have found success using this method with their boxed curriculum.

No-Nonsense Algebra New Leaf Publishing Group

WOW! Cool, Fun Emoji Theme All-In-One Subjects Workbook Under \$20! This is a great supplementary workbook that can and should be used as part of your 11th-grade curriculum. This book will add variety to your current curriculum because it focuses on several individual-specific subjects. This is not a workbook that your student will breeze through; they will need to write, research, take quizzes, and read. It's exactly what students need to keep their young minds bright and focused. Don't worry, an answer key is included at the end of the book!

Homeschoolers and educators are also using this book as part of their students' end-of-year portfolio. A portfolio is a sample of your students' work or record of what your student has accomplished in the core and elective subjects during the school year. (Some school districts may require a portfolio.) This All-Subjects workbook includes all the academic subjects your student will need: Math Algebra Language Arts Cursive handwriting practice sheets Science/Biology History Social Studies/Geography Spelling Life Skills (credit application, job application, Brag sheet (college planning), etc) Reading Health Music Art BONUS Answer Key Grades tracker sheets to track grades Additional work planner sheets End-of-year assessment evaluation form so you can write your students' learning and academic achievement. This 11th-grade workbook also makes an excellent educational gift for someone.

Twelve Subject Portfolio for Homeschooling Students Rainbow Bridge Publishing

Unique biblical studies course for students! Are there really contradictions in the Bible, and can it be relied upon for historical accuracy? What is scriptural authority; does it matter? How does a skeptical world impact your view? The Bible is increasingly under attack from every direction. Whether secular scholars or those in the Church try to tie in evolutionary concepts to match origin explanations that are not biblical, the accuracy and relevance of the Bible is at question. This course covers both volumes of How Do We Know the Bible Is True?, as well as Demolishing Supposed Bible Contradictions. Learn important details that can strengthen your confidence in the Bible's inerrant nature. Discover how the Bible proves itself, and the insight you need to strengthen your faith and defend God's Word!

Spectrum Algebra Carson-Dellosa Publishing

The vital resource for grading all assignments from the Master's Class Biology course, which includes: Instruction in biology with labs that provide comprehensive lists for required materials, detailed procedures, and lab journaling pages. A strong Christian worldview that clearly reveals God's wondrous creation of life and His sustaining power. This is an introductory high school level course covering the basic concepts and applications of biology. This 36-week study of biology begins with an overview of chemistry while opening a

deeper understanding of living things that God created. The course moves through the nature of cells, ecosystems, biomes, the genetic code, plant and animal taxonomies, and more. Designed by a university science professor, this course provides the solid foundation students will need if taking biology in college. FEATURES: The calendar provides daily lessons with clear objectives, and the worksheets, quizzes, and tests are all based on the readings. Labs are included as an integral part of the course.

Jensen ' s Format Writing is concerned with developing expository writing skills for high school students. This type of writing exposes, puts forth, explains, reveals, or exhibits in detail about something. It has a purpose to inform, clarify, and perhaps even to persuade. Such writing may simply describe, or it may give a series of reasons. In any case, there is a fundamental point that is made. How that point is made may often determine whether the piece is accepted or rejected. Students completing this course will learn valuable skills. the secret of cutting your work in half when it comes to writing a paper. how to order your presentation for its most powerful effect on the reader. a technique for getting the essence of what you read down on paper for future reference. how to stack up your ideas so that they flow together in a natural fashion. how to move ideas from sentence to sentence by following a simple rule. all about what and how to document your sources when doing research and writing.
