A lively history of Boston's emergence as a world-class city—home to the likes of Frederick Douglass and Alexander Graham Bell—by a beloved Bostonian

historian “ It ’ s been quite a while since I ’ ve read anything—fiction or nonfiction—so enthralling. ” —Dennis Lehane, author of *Mystic River* and *Shutter Island* Once upon a time, “ Boston Town ” was an insulated New England township. But the community was destined for greatness. Between 1850 and 1900, Boston underwent a stunning metamorphosis to emerge as one of the world ’ s great metropolises—one that achieved national and international prominence in politics, medicine, education, science, social

activism, literature, commerce, and transportation. Long before the frustrations of our modern era, in which the notion of accomplishing great things often appears overwhelming or even impossible, Boston distinguished itself in the last half of the nineteenth century by proving it could tackle and overcome the most arduous of challenges and obstacles with repeated—and often resounding—success, becoming a city of vision and daring. In *A City So Grand*, Stephen Puleo chronicles this remarkable period in Boston's history, in his trademark page-turning style. Our journey begins

with the ferocity of the abolitionist movement of the 1850s and ends with the glorious opening of America's first subway station, in 1897. In between we witness the thirty-five-year engineering and city-planning feat of the Back Bay project, Boston's explosion in size through immigration and annexation, the devastating Great Fire of 1872 and subsequent rebuilding of downtown, and Alexander Graham Bell's first telephone utterance in 1876 from his lab at Exeter Place. These lively stories and many more paint an extraordinary portrait of a half century of progress, leadership, and influence that turned a New

England town into a world-class city, giving us the Boston we know today.

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero,

Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation-and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's The Scream. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls

off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiouser and curiouser from there. During his stay-which is sometimes zany and sometimes frightening-he meet his hero, Michelangelo, who teaches him the true meaning of art.

My Overdue Book: Too many stories not to tell:

spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America.

His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life

with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and

just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as Peter has in this book. When I started to read it, I thought all of those common events that we shared would be an interesting parallel track to my life and as such I would have a great frame of reference, but as I read on, I realized just what an amazing story Peter has to tell and just how well he tells it. Bugs are for the birds! Lisbon is hungry and it's hard to wait for dinner. When her animal friends try to help her find something tasty to eat, the real problems begin! Join Lisbon on her funny misadventures. Each beautiful illustration is designed to inspire the imaginations of children. An activity page at the end of the book allows for

more fun as they search for special items in the illustrations. This version of *I Don't Want to Eat Bugs* has been designed specifically for ebook with a fixed layout and larger text for easy reading. While this is a great read-aloud book for parents, teachers, and other adults to share with children, we have chosen fonts that are similar to the way children form letters for easy recognition as they begin to read on their own. The print book is also available in 8.5" x 11" format. Author's Note: *I Don't Want to Eat Bugs* was written for my daughter, who was two when I wrote this story and didn't like salad, but now she's four and a half and loves it—if I give her plenty of salad dressing! (But don't worry—this isn't a book about eating salad.) Of course birds, cats, and dogs have a very different idea of what's good to eat, but through this fun adventure, Lisbon learns there is also food meant just for her—and it's

good, especially compared with all the offerings from her animal friends. My daughter and I privately call this book the "Ice Cream Story" (she LOVES ice cream so there had to be ice cream involved), and now whenever something funny happens, she says, "We should write a new ice cream story about that." And we have! I Don't Want to Eat Bugs is the first book in a planned series called Lisbon 's Misadventures. I ' ve written the next three books in the series, and Tim Petersen is hard at work creating the illustrations. Tim is obviously a fabulous artist, and I ' m excited to be working with him. You can sign up on my website to learn when the next book comes out (<http://teylarachelbranton.com/>). Thank you and enjoy!

A City within a City examines the civil rights movement in the North by concentrating on the struggles for equality in Grand Rapids, Michigan. Historian Todd Robinson studies the issues surrounding school integration and bureaucratic reforms as well as the role of black youth activism to detail the diversity of black resistance. He focuses on respectability within the African American community as a way of understanding how the movement was formed and held together. And he elucidates the oppositional role of northern conservatives regarding racial progress. A City within

a City cogently argues that the post-war political reform championed by local Republicans transformed the city's racial geography, creating a racialized "city within a city," featuring a system of "managerial racism" designed to keep blacks in declining inner-city areas. As Robinson indicates, this bold, provocative framework for understanding race relations in Grand Rapids has broader implications for illuminating the twentieth-century African American urban experience in secondary cities.
