Six years earlier, Kincaid got him acquitted on charges of breaking and entering, and now Zakin needs his help again. Dark Justice Profile Books

Here, from a brilliant young writer, is a paradigm-shifting history of both a utopian concept and global movement—the idea of the Third World. The Darker Nations traces the intellectual origins and the political history of the twentieth century attempt to knit together the world’s impoverished countries in opposition to the United States and Soviet spheres of influence in the decades following World War II. Spanning every continent of the global South, Vijay Prashad’s fascinating narrative takes us from the birth of postcolonial nations after World War II to the downfall and corruption of nationalist regimes. A breakthrough book of cutting-edge scholarship, it includes vivid portraits of Third World giants like India’s Nehru, Egypt’s Nasser, and Indonesia’s Sukarno—as well as scores of extraordinary but now-forgotten intellectuals, artists, and freedom fighters. The Darker Nations restores to memory the vibrant though flawed idea of the Third World, whose demise, Prashad ultimately argues, has produced a much impoverished international political arena.

A wall of silence surrounds a cadet’s death at an elite military academy: “Superb . . . This is an outstanding book.” —Publishers Weekly Detective Commissario Guido Brunetti has been called to investigate a parent’s worst nightmare. A young cadet has been found hanged, a presumed suicide, in Venice’s elite military academy. Brunetti’s sorrow for the boy, so close in age to his own son, is rivaled only by his contempt for a community that is more concerned with protecting the reputation of the school, and its privileged students, than understanding this tragedy. The young man is the son of a doctor and former politician—a man of impeccable integrity, all too rare in politics. Dr. Moro is clearly devastated; but while both he and his apparently estranged wife seem convinced that the boy’s death could not have been suicide, neither appears eager to talk to the police or involve Brunetti in any investigation of the circumstances in which he died. As Brunetti pursues his inquiry, he is faced with a wall of silence. Is the military protecting its own? And what of the other witnesses? Is this the natural reluctance of Italians to involve themselves with the authorities, or is Brunetti facing a conspiracy far greater than this one death? “Brunetti is a compelling character, a good man trying to stay on the honest path in a devious and twisted world.” —The Baltimore Sun

In 1961, young, black, eighth-grade dropout Wilbert Rideau despaired of his small-town future in the segregated deep south of America. He set out to rob the local bank and after a bungled robbery he killed the bank teller, a fifty-year-old white female. He was arrested and gave a full confession. When we meet Rideau he has just been sentenced to death row, from where he embarks on an extraordinary journey. He is imprisoned at Angola, the most violent prison in America, where brutality, sexual slavery and local politics confine prisoners in ways that bars alone cannot. Yet Rideau breaks through all this and finds hope and meaning, becoming editor of the prison magazine, going on to win national journalism awards. Full of gritty realism and potent in its evocation of a life condemned, Rideau goes far beyond the traditional prison memoir and reveals an emotionally wrought and magical conclusion to his forty-four years in prison.

One of the outstanding mysteries of the twentieth century, and one with huge political resonance, is the death of Dag Hammarskjöld and his UN team in a plane crash in central Africa in 1961. Just minutes after midnight, his aircraft plunged into thick forest in the British colony of Northern Rhodesia (Zambia), abruptly ending his mission to bring peace to the Congo. Across the world, many suspected sabotage, accusing the multi-nationals and the governments of Britain, Belgium, the USA and South Africa of involvement in the disaster. These suspicions have never gone away. British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby. He bizarrely insisted to the airport management that Hammarskjöld had flown elsewhere - even though his aircraft was reported overhead. This postponed a search for so long that the wreckage of the plane was not found for fifteen hours. White mercenaries were at the airport that night too, including the South African pilot Jerry Puren, whose bombing of Congolese villages led, in his own words, to 'flaming huts ...destruction and death'. These soldiers of fortune were backed by Sir Roy Welensky, Prime Minister of the Rhodesian Federation, who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis. The Rhodesian government conducted an official inquiry, which blamed pilot error. But as this book will show, it was a massive cover-up that suppressed and dismissed a mass of crucial evidence, especially that of African eye-witnesses. A subsequent UN inquiry was unable to rule out foul play - but had no access to the evidence to show how and why. Now, for the first time, this story can be told. Who Killed Hammarskjöld follows the author on her intriguing and often frightening journey of research to Zambia, South Africa, the USA, Sweden, Norway, Britain, France and Belgium, where she unearthed a mass of new and hitherto secret documentary and photographic evidence. At the heart of this book is Hammarskjöld himself - a courageous and complex idealist, who sought to shield the newly-independent nations of the world from the predatory instincts of the Great Powers. It reveals that the conflict in the Congo was driven not so much by internal divisions, as by the Cold War and by the West's determination to keep real power from the hands of the post-colonial governments of Africa. It shows, too, that the British settlers of Rhodesia would maintain white minority rule at all costs.
