“ Paul Farmer brings his considerable intellect, empathy, and expertise to bear in this powerful and deeply researched account of the Ebola outbreak that struck West Africa in 2014. It is hard to imagine a more timely or important book. ” —Bill and Melinda Gates

2014, Sierra Leone,

suffered the worst
epidemic of Ebola in
history. The brutal
virus spread rapidly
through a clinical desert
where basic health-care
facilities were few and
far between. Causing
severe loss of life and
economic disruption,
the Ebola crisis was a

major tragedy of
modern medicine. But
why did it happen, and
what can we learn from
it? Paul Farmer, the
internationally
renowned doctor and
anthropologist,
experienced the Ebola
outbreak
firsthand—Partners in
Health, the organization
he founded, was among
the international
responders. In *Fevers,
Feuds, and Diamonds*,
he offers the first
substantive account of

this frightening, fast-
moving episode and its
implications. In vibrant
prose, Farmer tells the
harrowing stories of
Ebola victims while
showing why the
medical response was
slow and insufficient.
Rebutting misleading
claims about the origins
of Ebola and why it
spread so rapidly, he
traces West Africa 's
chronic health failures
back to centuries of
exploitation and
injustice. Under formal

colonial rule, disease containment was a priority but care was not – and the region's health care woes worsened, with devastating consequences that Farmer traces up to the present. This thorough and hopeful narrative is a definitive work of reportage, history, and advocacy, and a crucial intervention in public-health discussions around the world.

When a Chinese monk broke into a hidden cave in 1900, he uncovered one of the world's great literary secrets: a time

capsule from the ancient Silk Road. Inside, scrolls were piled from floor to ceiling, undisturbed for a thousand years. The gem within was the Diamond Sutra of AD 868. This key Buddhist teaching, made 500 years before Gutenberg inked his press, is the world's oldest printed book. The Silk Road once linked China with the Mediterranean. It conveyed merchants, pilgrims and ideas. But its cultures and oases were swallowed by shifting

sands. Central to the Silk Road's rediscovery was a man named Aurel Stein, a Hungarian-born scholar and archaeologist employed by the British service. Undaunted by the vast Gobi Desert, Stein crossed thousands of desolate miles with his fox terrier Dash. Stein met the Chinese monk and secured the Diamond Sutra and much more. The scroll's journey—by camel through arid desert, by boat to London's curious scholars, by train to

evade the bombs of World War II—merges an explorer's adventures, political intrigue, and continued controversy. The Diamond Sutra has inspired Jack Kerouac and the Dalai Lama. Its journey has coincided with the growing appeal of Buddhism in the West. As the Gutenberg Age cedes to the Google Age, the survival of the Silk Road's greatest treasure is testament to the endurance of the written word. Fevers, Feuds, and

When the great environmental writer Edward Abbey died in 1989, four of his friends

buried him secretly in a hidden desert spot that no one would ever find. The final resting place of the Thoreau of the American West remains unknown and has become part of American folklore. In this book a young writer who went looking for Abbey's grave combines an account of his quest with a creative biography of Abbey. Sean Prentiss takes readers across the country as he gathers clues from his research, travel, and interviews with some of Abbey's

closest friends—including Jack Loeffler, Ken “Seldom Seen” Sleight, David Petersen, and Doug Peacock. Along the way, Prentiss examines his own sense of rootlessness as he attempts to unravel Abbey's complicated legacy, raising larger questions about the meaning of place and home. Ecology and Evolution of Communities Simon and Schuster "The definitive work on the West's water crisis."

--Newsweek The story of the American West is the story of a relentless quest for a precious resource: water. It is a tale of rivers diverted and dammed, of political corruption and intrigue, of billion-dollar battles over water rights, of ecological and economic disaster. In his landmark book, *Cadillac Desert*, Marc Reisner writes of the earliest settlers, lured by the promise of paradise, and of the ruthless tactics employed by Los Angeles politicians and business

interests to ensure the city's growth. He documents the bitter rivalry between two government giants, the Bureau of Reclamation and the U.S. Army Corps of Engineers, in the competition to transform the West. Based on more than a decade of research, Cadillac Desert is a stunning expose and a dramatic, intriguing history of the creation of an Eden--an Eden that may only be a mirage. This edition includes a new postscript by Lawrie

Mott, a former staff scientist at the Natural Resources Defense Council, that updates Western water issues over the last two decades, including the long-term impact of climate change and how the region can prepare for the future.

The Diamond Sutra A Diamond in the Desert Centaine de Thiry, a young Frenchwoman seeking a new life for herself and her unborn child, after her lover, a British flying ace, is killed during World War I, sets out for her lover's

childhood home in South Africa. Reprint. Diamond in the Desert Harper Collins The Buddhist text known as the Diamond Sutra is believed to be the oldest surviving printed book in the world. Made in 868 AD and written in Chinese, the text contains a significant dialogue on perception, and is one of the most important sacred works of the Buddhist faith. The Diamond Sutra was hidden for centuries in a cave in northwest China, and it was created from seven strips of yellow-stained paper that were printed from

carved wooden blocks and pasted together to form a scroll over five meters long. The oldest dated example of wood block printing—produced some six hundred years before Gutenberg’s movable type printing in Europe—it is clearly the product of a mature printing industry in China. This beautifully designed book, the first to focus solely on the Diamond Sutra, features a full-color reproduction of the work, along with an account of the discovery of the Sutra by Sir Aurel Stein in May 1907 in a hidden cave on the edge of the Gobi desert. The

book extensively discusses the content of the Sutra and also describes the invention of paper in China and the origins of Far Eastern printing. It reveals how the Sutra was originally made and the conservation work that the British Library employs to preserve it. The Diamond Sutra is a stunning book for anyone curious about the earliest origins of printing and the sacred foundations of Buddhism. *Illicit Liaisons* Harlequin Their explosive night is only the beginning in this desert romance by Pippa Roscoe. The Diamond Inheritance books: Book 1: Terms of Their Costa Rican Temptation Book 2: From One Night to Desert Queen A Diamond in the Desert Penguin Eleanor "Groovy" Robinson loves cooking and plans to go to culinary school just as soon as she's old enough. But even Groovy's thoughtfully—planned menus won't fix the things that start to go wrong the year she turns eleven—suddenly,

her father is in jail, her best friend's long-absent mother reappears, and the swallows that make their annual migration to her hometown arrive surprisingly early. As Groovy begins to expect the unexpected, she learns about the importance of forgiveness, understands the complex stories of the people around her, and realizes that even an earthquake can't get in

the way of a family that needs to come together. Kathryn Fitzmaurice's lovely debut novel is distinctively Californian in its flavor. Her rich characters and strong sense of place feel both familiar and fresh at first meeting—and worth revisiting, again and again.
