Translation studies is  
an academic  
interdiscipline dealing  
with the systematic  
study of the theory,  
description and  
application of  
translation,  
interpreting, and  
localization. As an  
interdiscipline,  
Translation Studies  
borrows much from the  
various fields of study  
that support translation.  
These include  
comparative literature,  
computer science,  
history, linguistics,  
philology, philosophy,  
semiotics, and  
terminology. The term  
translation studies was  
coined by the  
Amsterdam-based  
American scholar

A Companion to Translation Studies - Google Books

Translation Studies is the academic discipline which studies the theory and practice of translation.

The older concentration in translating was the structure of the message, the ability to reproduce stylistic subjects:

rhythms, rhymes, parallelism and unusual grammatical structures.

## Translation studies - Wikipedia

You will take a core course in translation theory and weekly practical translation classes Every course is assessed using a varied range of methods such as coursework and end of year examinations.

You produce coursework such as essays, language exercises, translations, or reports at regular intervals and the marks you receive for these pieces of work count towards your final mark.

The Guide to Translation and Localization

Block 1 - Translation Production. The first block introduces you to the field of translation studies and covers linguistic and functionalist approaches to translation. In particular, it will focus on the idea that translation is a purposeful activity performed by experts. Block 2 - Translation in Society.
