Welcome to the Nightside. For those foolish enough to seek it out, it's literal tourist trap, populated by beings, human and otherwise, who have never seen the sun rise. A place where your dreams can come true—as long as your nightmares don't get you first. My name is John Taylor. I'm a PI with a special talent for finding lost things. I'm also the reluctant owner of a very special—and dangerous—weapon: Excalibur, the legendary sword (which isn't what you think it is, and never was). Excalibur chose me, and to find out why, I'll have to consult the last defenders of Camelot, a group of knights who dwell in a place that some find more frightening than the Nightside. London Proper. It's been

years since I've been back—and there are good reasons for that...

Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

Beatles '66 LP Black Dog & Leventhal

A riveting look at the transformative year in the lives and careers of the legendary group whose groundbreaking legacy would forever change music and popular culture. They started off as hysteria-inducing pop stars playing to audiences of screaming teenage fans and ended up as musical sages considered responsible for ushering in a new era. The year that changed everything for the Beatles was 1966—the year of their last concert and their first album, Revolver, that was created to be listened to rather than performed. This was the year the Beatles risked their popularity by retiring from live performances, recording songs that explored alternative states of consciousness, experimenting with avant-garde ideas, and speaking their minds on issues of politics, war, and religion. It was the year their records were burned in America after John 's explosive claim that the group was "more popular than Jesus," the year they were hounded out of the Philippines for "snubbing" its First Lady, the year John met Yoko Ono, and the year Paul conceived the idea for Sgt. Pepper 's Lonely Hearts Club Band. On the fiftieth anniversary of this seminal year, music journalist and Beatles expert Steve Turner slows down the action to investigate in detail the enormous changes that took place in the Beatles ' lives and work during 1966. He looks at the historical events that had an impact on the group, the music they made that in turn profoundly affected the culture around them, and the vision that allowed four young men from

Liverpool to transform popular music and serve as pioneers for artists from Coldplay to David Bowie, Jay-Z to U2. By talking to those close to the group and by drawing on his past interviews with key figures such as George Martin, Timothy Leary, and Ravi Shankar—and the Beatles themselves—Turner gives us the compelling, definitive account of the twelve months that contained everything the Beatles had been and anticipated everything they would still become.

(Limelight). A Hard Day's Night: Music on Film Series is the story of the making of the greatest rock-and-roll movie of all time. Beginning with introductions to the film's stars chronicling their rise from a raggedy teenage skiffle band to the biggest pop act in the world the book goes on to tell how the American film company United Artists wanted to make a quick, low-budget movie starring the Fab Four so its record division could put out a motion picture soundtrack album full of new Beatles songs, in order to allow the studio to cash in on the incredible wave of Beatlemania then sweeping the planet. Director Richard Lester, producer Walter Shenson, and screenwriter Alun Owen were hired to churn out just another cheap exploitation film, but instead used the opportunity to create a startlingly fresh and original movie that broke new ground both in subject matter (instead of simply following genre tradition and sticking the band in some corny made-up plot, they had the Beatles play themselves in a narrative based on their own incredible real-life experiences) and in form (Lester's inspired, surrealist approach to the film's musical numbers kicked off the entire music video revolution). Covered is the film's frantic six-week shoot, the lively recording sessions that resulted in seven great new Beatles songs, and how both the film and the album met with great critical and popular success.
