Is Hubert on a roll, or is his
invention spinning toward
disaster? Hubert loves to

think, and not only does that
distinguish him from his
father, Gorp, and everyone
else in ancient Sumeria, but
it leads to the greatest
invention of all time-the
wheel. It takes a while for his
neighbors to see the wheel as
a major technological
advancement rather than a
newfangled coffee-table top,
but eventually they do, and
life is great. Well, life is great

until the Sumerians' archenemies, the Assyrians, find out about the wheel and use it to plan their destruction. Now the question is not whether Hubert's invention is ahead of its time, but whether he should have stuck to designing living room furniture instead of causing civilization's demise.

Hilarious and profound, Hubert's adventure brings the ancient world to life.

Booktalking Across the Curriculum Crown

This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating, and sources; character analysis; comic elements and verbal conceits; evidence of authorship; performance analysis; and feminist

interpretations. Alongside theater reviews, production photographs, and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work, and concept rounds out this valuable resource. No Lipstick in Lebanon

she helped end a
131-year all-male
tradition at
Annapolis. Her
entertaining and
shocking account of

the academy's elite
fraternity and
become commissioned
naval officers is a
valuable chronicle
of the times, and
her insights have
been credited with
helping us
understand the
challenges of
integrating women
into the military

services. From the punishing crucible of plebe summer to the triumph of graduation, she describes their search for ways to survive the mental and physical hurdles they had to overcome. Unflinchingly frank, she freely discusses the prejudice and abuse they encountered that often went unpunished or unreported. A loyal Navy supporter, nevertheless, Disher provides a balanced account of life behind the academy's storied walls for that first group of teenaged women who charted the way for future female midshipmen. Lively, well researched, and amazingly good humored, the book seems as fresh today as it was when first published in hardcover in 1998. Almost an Animal Alphabet Pantheon Two young cave dwellers set about creating words for the many things they encountered in their world, in a lively tale about the origination of language.

Esther's Notebooks R. Bowker Addressing the hot issue of literacy and boys, this new book explores the facts and research related to the topic. Furnishing annotations of current, relevant journal and magazine articles, it provides strategies for making changes in the classroom and home

that will help improve the literacy of boys. Teller of Tales Xlibris Corporation Contains more than 160 booktalks and 330 book suggestions designed to help middle-school teachers promote fiction-reading in their classrooms.

Meron Lemma couldn't know there was a fate worse than wasting away as a poor teenager in the Ethiopian slum where she was born.

Desperate to create her own destiny, and drawn by the irresistible possibility of earning real dollars as a maid in Beirut,

Meron leaves her devout mother and family behind to join the many other Habesha migrants searching for a better life in the Middle East. Only once there does she realise the ugly truth: instead of opportunity, she has found captivity. Instead of freedom, subordination. Trapped and mistreated by the harsh Madame, Meron lives in constant fear - fear of the daily onslaught of Madame's vicious spite; of her cruel and callous daughters; of the sexual advances of her predatory son; and most of all, fear of losing her sense of self... her

Habesha spirit... even her life. Rich in cultural detail and exposing the ongoing, under-reported horrors facing domestic workers in Lebanon today, *No Lipstick in Lebanon* is a harrowing account of the unremitting hell of modern slavery. Told through the escalating plight of our heroine, this is not just a fictionalised report of one maid's ordeal, but rather the uncovering of a larger issue plaguing a generation of women.

A Telling of the Tales Algonquin Books

The hilarious, heartbreaking, and painfully true life

of a girl growing up in Paris, from the acclaimed comic book artist and author of *The Arab of the Future* "Funny, well-observed...contains immense daring and depth...Sattouf has drawn a portrait of a generation." —Observer, "Graphic Novel of the Month"

Every week, the comic book artist Riad Sattouf has a chat with his friend's 10-year old daughter, Esther. She tells him about her life, her family, her school, her friends, her hopes, her dreams and her fears. And then he creates a one-page

comic strip based on what she says. This book is a collection of 156 of those strips, comprising the first three volumes as they appeared in Europe, spanning Esther's life from age 10 to 12. As The Guardian noted: "Each page of Esther's Notebooks is self-contained—there's usually a neat punchline—but read them all, and you come to see that Sattouf has drawn a portrait of a generation: their hopes, dreams and cultural references; the way that their personalities,

backgrounds—many of the children portrayed have parents who are immigrants—and preconceived ideas about sexuality begin to play out even before they've begun secondary school. The result is a bit like a cartoon version of Michael Apted's landmark TV series, *Up*. These funny, well-observed comics are fantastically daring."

At the end of the fifteenth century, the Spanish Inquisition forced many Jews to flee the country. The most adventurous among them took to the high seas as freewheeling outlaws. In ships bearing names such as Prophet Samuel, Queen Esther, and Shield of Abraham, they attacked and plundered the Spanish fleet while forming alliances

with other European powers to ensure the safety of Jews living in hiding. Jewish Pirates of the Caribbean is the entertaining saga of a hidden chapter in Jewish history, and of the cruelty, terror and greed that flourished during the Age of Discovery. Among the many daring figures to feature in the book are: 'the Great Jewish Pirate' Sinan, Barbarossa's second-in-command; Rabbi Samuel Palache and his brother, Joseph, who went from commanding pirate ships to founding the first

openly Jewish community in the New World; and Abraham Cohen Henriques, and arms dealer who used his cunning and economic muscle to find safe havens for other Jews. Filled with high-seas adventures including encounters with Captain Morgan and other legendary pirates - and detailed portraits of cities stacked high with plunder, such as Port Royal, Jamaica, Jewish Pirates of the Caribbean captures a gritty and glorious era of history from an unusual and eye

opening perspective.

In a state of ontological crisis, all boundaries have been ruptured between nature and culture, human and machine, and object and subject. We find ourselves exhaustively tackling the turmoil of our own designed circumstances, as we emerge to become extensions of the extensions that we built. In this practice-based design theory project, the authors share their experiments in negotiating power with things, hacking mundane objects, and thus their own everyday lives, allowing themselves to be swayed and misled, disrupted and called

into question. The experiments delineate a mode of critical cultural inquiry where design and sociology collide to elicit critical perspectives on the 'designer' and the 'designed' as we act within an entangled politics of things.

This book is a humor book, intended to make you smile. It is set an undisclosed distance in the future, in the USA, in order to try and not conflict with any political parties or people or issues of today. In this future

USA, the political parties are now the "Bulls" and the "Bears." And for the sake of humor, they are even more extreme than today, and to say the least, do not get along. But fortunately the rules for becoming a US president are now easier. A very nice man and his family had just emigrated to the US from Asia, India in particular, and this nice man and his family wish to help out their new country, the US. And so Rajak Gandhi Patel the 35th manages to become president. But can he deal with the craziness he sees? Is the family really prepared for what they find? Will anyone help him? I realize that a person could ask me, the author if I have any political bent in this book. And that

answer would be "no." I much as I enjoyed do not belong to any political party. I do not even go to all birthday parties that I am invited to. And more to the point, I made both parties so extreme that I certainly would not want to belong to either of these parties, and my guess is that the reader will feel the same way. But that is getting too serious. The purpose of this book is simply humor. And my goal is to make you smile. If this book has any point at all, other than humor, it might be the good that just a few good people can accomplish, and that people accomplish more when they work together. Other than that, it is all in fun. I truly hope others will enjoy reading this book as

writing it. -Ron Plachno (author)
