With almost daily reports of failings in school management, what can be done to improve educational outcomes for everyone? Pat Thomson takes on England's muddled education system, highlighting failings caused by the actions of ministers in successive governments. While corrupt actions are taken by some, it is predominantly the corruption of the system that is at fault. She exposes fraudulent and unethical practices, including the skewing of the curriculum and manipulation of results, and argues for an urgent review, leading to a revitalised education system that has the public good at its heart.

New A-Level Maths for Edexcel: Pure Mathematics - Year 2 Student Book (with Online Edition) Routledge

"Where are you from?" An easy question for most to answer, but a very tough one for Third Culture Kids (TCKs). These children grow up outside their parents' home cultures, neither belonging entirely to their home culture nor to their host culture. They face unique challenges in establishing their identity and a sense of belonging, especially when returning to their home country. An increasing number of Singaporean families are living overseas for various reasons, and their children are growing up as TCKs. On returning to Singapore, these Singaporean TCKs will have to cope with a variety of re-entry stresses when adjusting to Singapore culture, making new friends, and continuing their education in the Singapore education system. Many existing books about the TCK experience are written from the perspective of other cultures, chiefly the US. This book addresses some factors unique to the Singapore environment and provides Singaporean parents with suggestions to smooth their children's re-entry to Singapore. With experience drawn from the real-life experiences of the authors' children and others they know personally, this book will be helpful to families of TCKs through the whole process: preparing to leave Singapore, while overseas, and, especially, when they return.
