Onyx Books  
One of the 20th  
century's enduring  
works, One  
Hundred Years of  
Solitude is a  
widely beloved  
and acclaimed  
novel known  
throughout the  
world, and the  
ultimate  
achievement in a  
Nobel  
Prize – winning  
career. The novel  
tells the story of  
the rise and fall of

---

the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the endlessness of

death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into

dozens of languages, this stunning work is no less than an accounting of the history of the human race.

*A Lonely Resurrection*  
Thomas & Mercer

Do we live in a world that makes sense, not just now, but totally and forever? If, as scientists now predict, the universe is going to end in collapse or decay, can it really be a divine creation? Is there a credible hope of a destiny beyond death?

---

In this engaging and intellectually scrupulous book, a leading scientist-theologian draws on ideas from science, scripture, and theology to address these important questions. John Polkinghorne carefully builds a structure of the hope of the life to come that involves both continuity and discontinuity with life in this world—enough continuity so that it is we ourselves who shall live again in that future world and enough discontinuity to ensure that the second story is not just a repetition of the first. Polkinghorne develops his argument in three sections. In the first, he considers the role of contemporary scientific insights and cultural expectations. In the second, he gives a careful account of the various testimonies of hope to be found in the Bible and assesses the credibility of belief in Jesus' resurrection.

In the final section he critically analyzes and defends the Christian hope of the life of the new creation.

Enter former Marine sniper Dox and black-ops veteran Daniel Larison with an unusual assignment: not to kill Diaz, but to keep her alive. A lot of players are determined to acquire the videos and the blackmail power they represent. But with Seattle sex-crimes detective Livia Lone, "natural causes" killer John Rain, and ex-Mossad honey-trap specialist Delilah, the good guys might just have a chance. They're not going to play by anyone else's rules. They're not going to play by any rules at all. They want a different kind of fight. The chaos kind.

When the government offers a twenty-four-year-old former Marine a five-figure payday, there's only one question: Who does he have to kill? 1990. A restless young man called Dox is back home in Texas. His friends have missed him, and his mother and sisters need him. But after four years as a Marine and another as a CIA contractor fighting the Soviet Union alongside the Afghan mujahedeen, small-town life in Abilene is a suffocating

dead end. Another secret war, this one in Southeast Asia, offers a big payday and the solution to his family's troubles. But secret wars are never what they're billed to be, and Dox is about to get the education of his young life. Among the lessons--the only thing more dangerous than war is falling in love with your enemy. of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent

government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file

worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
