Three years ago, Jory Harcourt changed his name and shut the door on a past full of pain, only to emerge stronger on the other side. He has a new career, a great working partner, and

---

a satisfying life—except for the hole in his chest left behind when police Detective Sam Kage walked out with his heart. Now Sam's back and he knows what he wants... and what he wants is Jory. Jory, who doesn't know if he can survive another break up or losing Sam to his dangerous job, resists returning to

the arms of the only man he has ever truly loved. But when a serial killer with a score to settle targets Jory, he will have to decide if love is worth the danger as he tries to solve the case and keep Sam safe.

Just finished with college, Jack Alder is on his way to beautiful Maui on a working vacation. Silently breathing a

sigh of relief after his relationship with Salvador Moretti was revealed to his parents and Flossie, the girl next door who thought she was going to marry him, Jack has no idea that an adventure he could never have imagined awaits. Flirtatious steward Randy saves Jack's life when their planes crashes. When Randy's boyfriend dumps him, he convinces Jack to join him on a wild ride in an old car he buys. Along the way they meet Danny, who was rejected by his family for his sexuality, and Missy, who's halfway toward becoming Mister. Will the four find romance with a little help from the spiritual realm?

When it comes to big dreams and schemes, young Chuck Lambert would give Walter Mitty a run for his money. In fact, Chuck's biggest dream of all is really out of this world. Because he's got his eyes on a prize in the sky. Chuck wants to

buy a planet of his own. . . . Madman Murphy, the King of Planetary Realtors, is more than happy to oblige. He's got a whole galaxy of planets for sale. All Chuck needs is money . . . and a lot of it. Eleven years later, saving every penny he can scrape up, Chuck's dream comes true. He takes possession and takes off for Planet 19453X. . . One problem: Madman Murphy has sold Chuck a world of trouble. Because on Planet 19453X the water is undrinkable, the air is unbreathable, and the laws of physics don't apply. Has Chuck's dream turned into a nightmare? Not quite. As he's about to discover, sometimes, to fulfill your true desire, it's simply a matter of digging a

little deeper. . . . By the time A Matter of Matter appeared in 1949, L. Ron Hubbard's stature as a writer was well established. As author and critic Robert Silverberg puts it: he had become a "master of the art of narrative." Hubbard's editors urged him to apply his gift for succinct characterization, original plot, deft pacing and imaginative action to the genre of science fiction and fantasy. The rest is Sci-Fi history. Also includes the science fiction adventures, The Conroy Diary, in which the man who opens up the universe to mankind also opens himself to charges of fraud and tax evasion; The Obsolete Weapon, the story of an American GI involved

doesn't have to go looking for trouble. Wherever he goes, it seems to find him—particularly when his partner, Sam Kage, is working

undercover on a federal task force. After the recession forces him to close his business, Jory goes to work as a matchmaker and event planner. From there, it's only a matter of time before his big mouth and up-front attitude make him the rope in a tug-of-war between a trust fund baby and a drug-smuggling criminal. Then, as if that situation weren't delicate enough, Jory's undercover lover shows up working for the smuggler. Between the men who want him and the men who just want him

dead, Chicago is getting a little crowded for Jory, so on the advice of his brother, his boyfriend, and the FBI task force, he heads for Hawaii... where a serious accident threatens his quality of life. Can Sam and Jory keep the faith and prove that their relationship really is bulletproof?

## Books

This book explores the experiences, causes, and consequences of food insecurity in different geographical regions and historical eras. It highlights collective and political actions aimed at food sovereignty as solutions to mitigate suffering. Despite global efforts to end hunger, it persists and has even increased in some regions. This book provides interdisciplinary and historical perspectives on the manifestations of

food insecurity, with countries have

case studies

illustrating how people coped with

violations of their rights during the war-time

deprivation in

France; the

neoliberal

incursions on food

supply in Turkey,

Greece, and

Nicaragua; as well

as the consequences

of radioactive

contamination of

farmland in Japan.

This edited

collection adopts

an analytical

approach to

understanding food

insecurity by

examining how the

historical and

political situations

in different

resulted in an

unfolding dialectic

of food insecurity

and resistance, with

the most

marginalized people—immigrants,

those in refugee

camps, poor

peasants, and so

forth—consistently

suffering the worst

effects, yet still

maintaining agency

to fight back. The

book tackles food

insecurity on a local

as well as a global

scale and will thus

be useful for a

broad range of

audiences,

including students,

scholars, and the

general public

interested in

studying food

Route 66 may never

readers a fresh and  
different perspective.  
Documenting 101  
distinct locations

along historic Route 66, this book emphasizes forgotten and familiar places—relics of the past that are seldom, if ever, portrayed in print. Photographer Ellen Klinkel first traveled Route 66 in 2013. Immediately inspired to capture the road “ in its pure essence ” through the lens of her camera, she returned over the next four years to photograph various sites along the old highway. As she explains, the road is the “ main character ” in all her images, whether they depict a dramatic sky along Tornado Alley, a nightscape in the Mojave Desert, or a tranquil early morning on the Santa Monica Pier. She is drawn to places that evoke change and abandonment—especially ones that became obscure

during the road ' s periodic rerouting—as well as revival. A Matter of Time follows the journey that so many Americans traveled for decades: starting from downtown Chicago, coursing through multiple states in the Midwest and Southwest, and culminating in Santa Monica, California, near Los Angeles. As a Route 66 historian and advocate, Nick Gerlich is deeply familiar with the entire route, both through personal experience and extensive research. His in-depth captions place Klinkel ' s photographs in historical and cultural context, enhancing our understanding of her haunting images. Together, photographer and historian inspire new

and unexpected ways to appreciate America ' s Main Street. Just a Matter of Time A Matter of Time: Book 1 When eight-year-old Vinni Stewart disappears from a Jersey shore town, Maddy, her distraught single mother, begins a desperate search for her daughter. Maddy ' s five-year journey leads her to a bakery in Brooklyn, where she stumbles upon something terrifying. Ultimately, her artist neighbor Evelyn reconnects Maddy to her passion for painting and

guides her to a life transformed through art. Detective John D ' Orfini sees more than a kidnapping in the plot-thickening twists of chance surrounding Vinni ' s disappearance, but his warnings to stay away from the investigation do not deter Maddy, even when her search puts her in danger. When the Russian Mafia warns her to stop sniffing into their business, Maddy must make a choice whether to save one child—even if it might jeopardize saving her own.

In this new book from Routledge and MiddleWeb, author Angie Miller shows how you can turn your students into informed citizens by teaching them how to research effectively. In

today's information-saturated world research skills have moved beyond fact-finding, into fact-sifting, fact-sorting, and fact-assessing. Miller shows you how to help students check sources, take good notes, make use of information, and synthesize and present information across the subject areas. She also shows how to make research a daily practice, not a one-time essay or project. With examples and online handouts you can use immediately, this practical book is a valuable resource for educators seeking to engage students in their work and encourage them toward higher level thinking. Clocks and calendars rule our lives, and

while time is constant, life is anything but linear. The Greeks talked about time in two ways. Chronos means measurable time. Kairos means understanding the value of a moment. As the clock ticks by, it's vital you find meaningful moments to hug your toddler, laugh with school-aged child, or have a deep conversation with your teenager. Paul encourages us in Ephesians to make the most of our time, being proactive with every minute we have. The principles in this book will help you develop skills you need to build meaningful relationships with your children, no matter where they are in life. By building on foundational principles such as consistency and intentionality, and

modeling leadership values such as honor, courage, and vision, you will position your children to ultimately change their world. Remember, time is free, but it is precious. Master your time and you will master your life.
