One morning in the dead of winter, during the darkest years of World War II, three German soldiers head out into the frozen Polish countryside. They have been charged by their commanders with tracking down and bringing back for execution one of them a Jew. Having flushed out a young man hiding in the woods, they decide to rest in an abandoned house before continuing their journey back to the camp. As they prepare food, they are joined by a passing Pole whose virulent anti-Semitism adds tension to an already charged atmosphere. Before long, the group's sympathies begin to splinter when each man is forced to confront his own conscience as the moral implications of their murderous mission become clear.

When Winter Comes to Main Street Hardie Grant Publishing

The remarkable, amusing and inspiring adventures of a Canadian couple who make a year-long attempt to eat foods grown and produced within a 100-mile radius of their apartment. When Alisa Smith and James MacKinnon learned that the average ingredient in a North American meal travels 1,500 miles from farm to plate, they decided to launch a simple experiment to reconnect with the people and places that produced what they ate. For one year, they would only consume food that came from within a 100-mile radius of their Vancouver apartment. The 100-Mile Diet was born. The couple's discoveries sometimes shook their resolve. It would be a year without sugar, Cheerios, olive oil, rice, Pizza Pops, beer, and much, much more. Yet local eating has turned out to be a life lesson in pleasures that are always close at hand. They met the revolutionary farmers and modern-day hunter-gatherers who are

changing the way we think about food. They got personal with issues ranging from global economics to biodiversity. They called on the wisdom of grandmothers, and immersed themselves in the seasons. They discovered a host of new flavours, from gooseberry wine to sunchokes to turnip sandwiches, foods that they never would have guessed were on their doorstep. The 100-Mile Diet struck a deeper chord than anyone could have predicted, attracting media and grassroots interest that spanned the globe. The 100-Mile Diet: A Year of Local Eating tells the full story, from the insights to the kitchen disasters, as the authors transform from megamart shoppers to self-sufficient urban pioneers. The 100-Mile Diet is a pathway home for anybody, anywhere. Call me naive, but I never knew that flour would be struck from our 100-Mile Diet. Wheat products are just so ubiquitous, "the staff of life," that I had hazily imagined the stuff must be grown everywhere. But of course: I had never seen a field of wheat anywhere close to Vancouver, and my mental images of late-afternoon light falling on golden fields of grain were all from my childhood on the Canadian prairies. What I was able to find was Anita's Organic Grain & Flour Mill, about 60 miles up the Fraser River valley. I called, and learned that Anita's nearest grain suppliers were at least 800 miles away by road. She sounded sorry for me. Would it be a year until I tasted a pie? —From *The 100-Mile Diet*

Waiting for Nothing, first published in 1935, is a sobering, first-hand account of the author's life as a homeless man during the Great Depression of the 1930s. The book, a classic portrayal of the brutality and inhumanity of the time, was written while author Tom Kromer (1906-1969) was working at a Civilian Conservation Corps camp in California, and was his only completed novel. Waiting for Nothing describes Kromer's travels on the rails, his encounters with small-time cooks, prostitutes and homosexuals, and the endless search for enough food to eat and a warm place to sleep. Throughout the book, Kromer describes the plight of a vast army of unemployed workers, left to fend for themselves in a largely uncaring society.

Widely regarded as Sorrentino's finest achievement, Mulligan Stew takes as its subject the comic possibilities of the modern literary imagination. As avant-garde novelist Antony Lamont struggles to write a "new wave murder mystery," his frustrating emotional and sexual life wreaks havoc on his work-in-progress. As a result, his narrative (the very book we are reading) turns into a literary "stew" an uproariously funny melange of journal entries, erotic poetry, parodies of all kinds, love letters, interviews, and lists—as Hugh Kenner in "Harper's" wrote, "for another such virtuoso of the List you'd have to resurrect Joyce." Soon, Lamont's characters (on loan from F. Scott Fitzgerald, Flann O'Brien, James Joyce, and Dashiell Hammet) take on lives of their own, completely sabotaging his narrative. Sorrentino has vastly extended the possibilities of what a novel can be in this extraordinary work, which both parodies and pays homage to the art of fiction.

The five McAlisters were gathered in the dining-room, one rainy night in late August. In view of the respective dimensions of the family circle and the family income, servants were few in the McAlister household, and division of labor was the order of the day. Old Susan had cleared away the table and brought in the lamp; then she retired to the kitchen, leaving the young people to themselves. Hope was darning stockings. She had one of Hubert's socks drawn on over her hand, which showed, white and dainty, through the great, ragged hole. Hubert sat near her with little Allyn on his knee, tiding over a crisis in the young man's temper by showing him pictures in the dilapidated *Mother Goose* which had done duty for successive McAlisters, from seventeen-year-old Hope down. "Stop kicking brother," he commanded, as Allyn lifted up his voice and his heels in vigorous protest against things in general, and the approach of the sandman in particular. "Listen, Allyn, -'There was a little man, And he had a little gun, And his bullets were made of lead, lead, lead.'"
