Suffused with Russell Banks's trademark lyricism and reckless humor, the twelve stories in *A Permanent Member of the Family* examine the myriad ways we try—and sometimes fail—to connect with one another, as we seek a home in the world. In the title story, a father looks back on the legend of the cherished family dog whose divided loyalties mirrored the fragmenting of his marriage. "A Former Marine" asks, to chilling effect, if one can ever stop being a parent. And in the haunting, evocative "Veronica," a mysterious woman searching for her daughter may not be who she claims she is. Moving between the stark beauty of winter in upstate New York and the seductive heat of Florida, Banks's acute and penetrating collection demonstrates the range and virtuosity of both his narrative prowess and his startlingly panoramic vision of modern American life.

"A powerful family and a deadly game. Be prepared for a nail-biting, roller-coaster of a ride in Catherine Steadman's classy and ingenious new thriller."—B. A. Paris, New York Times bestselling author of *Behind Closed Doors* From the New York Times bestselling author of *Something in the Water*, *Mr. Nobody*, and *The Disappearing Act*. . . . THE RULES 1. Listen carefully 2. Do your research 3. Trust no one 4. Run for your life Harriet Reed, a novelist on the brink

of literary stardom, is newly engaged to Edward Holbeck, the heir of an extremely powerful family. And even though Edward has long tried to sever ties with them, news of the couple's marital bliss has the Holbecks inching back into their lives. As Harriet is drawn into their lavish world, the family seems perfectly welcoming. So when Edward's father, Robert, hands Harriet a tape of a book he's been working on, she is desperate to listen. But as she presses play, it's clear that this isn't just a novel. It's a confession. A confession to a grisly crime. A murder. And, suddenly, the game is in motion. Feeling isolated and confused, Harriet must work out if this is part of a plan to test her loyalty. Or something far darker. What is it that Robert sees in her? Why give her the power to destroy everything? This might be a game to the Holbeck family—but losing might still prove deadly. **READY OR NOT, HERE THEY COME . . .**

Real solutions to a hidden epidemic: family estrangement. Estrangement from a family member is one of the most painful life experiences. It is devastating not only to the individuals directly involved--collateral damage can extend upward, downward, and across generations. More than 65 million Americans suffer such rifts, yet little guidance

exists on how to cope with and overcome them. In this book, Karl Pillemer combines the advice of people who have successfully reconciled with powerful insights from social science research. The result is a unique guide to mending fractured families. **Fault Lines** shares for the first time findings from Dr. Pillemer's ten-year groundbreaking Cornell Reconciliation Project, based on the first national survey on estrangement; rich, in-depth interviews with hundreds of people who have experienced it; and insights from leading family researchers and therapists. He assures people who are estranged, and those who care about them, that they are not alone and that fissures can be bridged. Through the wisdom of people who have "been there," **Fault Lines** shows how healing is possible through clear steps that people can use right away in their own families. It addresses such questions as: How do rifts begin? What makes estrangement so painful? Why is it so often triggered by a single event? Are you ready to reconcile? How can you overcome past hurts to build a new future with a relative? Tackling a subject that is achingly familiar to almost everyone, especially in an era when powerful outside forces such as technology and mobility are lessening family cohesion, Dr. Pillemer combines dramatic stories, science-based guidance,

and practical repair tools to help people find the path to reconciliation.

In this poignant and disturbing memoir of lost innocence, coercion, survival, and healing, Dianne Lake chronicles her years with Charles Manson, revealing for the first time how she became the youngest member of his Family and offering new insights into one of the twentieth century's most notorious criminals and life as one of his "girls." At age fourteen Dianne Lake—with little more than a note in her pocket from her hippie parents granting her permission to leave them—became one of "Charlie's girls," a devoted acolyte of cult leader Charles Manson. Over the course of two years, the impressionable teenager endured manipulation, psychological control, and physical abuse as the harsh realities and looming darkness of Charles Manson's true nature revealed itself. From Spahn ranch and the group acid trips, to the Beatles' White Album and Manson's dangerous messiah-complex, Dianne tells the riveting story of the group's

descent into madness as she lived it. Though she never participated in any of the group's gruesome crimes and was purposely insulated from them, Dianne was arrested with the rest of the Manson Family, and eventually learned enough to join the prosecution's case against them. With the help of good Samaritans, including the cop who first arrested her and later adopted her, the courageous young woman eventually found redemption and grew up to lead an ordinary life. While much has been written about Charles Manson, this riveting account from an actual Family member is a chilling portrait that recreates in vivid detail one of the most horrifying and fascinating chapters in modern American history. Member of the Family includes 16 pages of photographs.

LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey

Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the

Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population.

Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.
