In this poignant and disturbing memoir of lost innocence, coercion, survival, and healing, Dianne Lake chronicles her years with Charles Manson, revealing for the first time how she became the youngest member of his Family and offering new insights into one of the twentieth century's most notorious criminals and life as one of his "girls." At age fourteen Dianne Lake—with little more than a note in her pocket from her hippie parents granting her permission to leave them—became one of "Charlie's girls," a devoted acolyte of cult leader Charles Manson. Over the course of two years, the impressionable teenager endured manipulation, psychological control, and physical abuse as the harsh realities and looming darkness of Charles Manson's true nature revealed itself. From Spahn ranch and the group acid trips, to the Beatles' White Album and

Manson's dangerous messiah-complex, Dianne tells the riveting story of the group's descent into madness as she lived it. Though she never participated in any of the group's gruesome crimes and was purposely insulated from them, Dianne was arrested with the rest of the Manson Family, and eventually learned enough to join the prosecution's case against them. With the help of good Samaritans, including the cop who first arrested her and later adopted her, the courageous young woman eventually found redemption and grew up to lead an ordinary life. While much has been written about Charles Manson, this riveting account from an actual Family member is a chilling portrait that recreates in vivid detail one of the most horrifying and fascinating chapters in modern American history. Member of the Family includes 16 pages of photographs.

Based on his own experiences in law enforcement--three decades of high-level mob investigations--Nick Vasile gives us a novel that reverberates with authenticity. Paul Dante is hired by the Washington D.C. Mafia to track down their godfather's missing son-in-law. He quickly learns that the young man is not a trusted "member of the family" but an FBI informant. A violent psychopath who kills and tortures for pleasure, Orsini will, if left unchecked, destroy everything in his path--friends, family, the Bureau itself. Dante finds a world turned upside-down, where morality is measured in magnum bullets, where a blood-crazed federal informant is more dangerous than the Mafia bosses he has been paid to put away. #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • ONE OF GQ'S TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi

Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And

---

unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

A Permanent Member of the Family Harper Collins

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that

they encounter in trying to meet the needs of older adults.
