About a Mountain Harper Collins

Our obsession with bigger and faster is spinning us out of control. We move through the week breathless and bustling, just trying to keep up while longing to slow down. But real life happens in the small moments, the kind we find on Tuesday, the most ordinary day of the week. Tuesday carries moments we want to hold onto--as well as ones we'd rather leave behind. It holds secrets we can't see in a hurry--secrets not just for our schedules but for our souls. It offers us a simple bench on which to sit, observe, and share our stories. For those being pulled under by the strong current of expectation, comparison, and hurry, relief is found more in our small moments than in our fast movements. In *Simply Tuesday*, Emily P. Freeman helps readers · stop dreading small beginnings and embrace today's work · find contentment in the now--even when the now is frustrating or discouraging · replace competition with compassion · learn to breathe in a breathless world Jesus lived small moments well, slow moments fully, and all moments free. He lives with us still, on all our ordinary days, creating and redeeming the world both in us and through us, one small moment at a time. It's time to take back Tuesday, to release our obsession with building a life, and believe in the life Christ is building in us--every day.

James Pinocchio wakes up in the back of a New York City taxi with a combination lock piercing his left ear and no idea how it got there, or what the combination is. The following day, his wealthy parents decide they've had enough, and they send him off to Sleepy Hollow, the famous rehab facility in Upstate New York. While there, Mr. Pinocchio meets all sorts of Fascinating Characters, one more Unbelievable and Amazing than the next, and they challenge him to confront his Deepest, Darkest Fears. The experience leads Mr. Pinocchio to the very edges of despair, but at a critical juncture he finds hope in the arms of a Bad Woman.

The love affair ends tragically, alas, and, like many parts of Mr. Pinocchio's story, stretches credibility to the breaking point, but the harrowing adventure -- which involves a great deal of pain, a smattering of dirty sex, and endless amounts of girlish crying -- eventually leads to Redemption and Healing. Perhaps the most unconventional and literally breathtaking father-son story you'll ever read, *My Friend Leonard* pulls you immediately and deeply into a relationship as unusual as it is inspiring. The father figure is Leonard, the high-living, recovering coke addict "West Coast Director of a large Italian-American finance firm" (read: mobster) who helped to keep James Frey clean in *A Million Little Pieces*. The son is, of course, James, damaged perhaps beyond repair by years of crack and alcohol addiction--and by more than a few cruel tricks of fate. James embarks on his post-rehab existence in Chicago emotionally devastated, broke, and afraid to get close to other people. But then Leonard comes back into his life, and everything changes. Leonard offers his "son" lucrative—if illegal and slightly dangerous—employment. He teaches James to enjoy life, sober, for the first time. He instructs him in the art of "living boldly," pushes him to pursue his passion for writing, and provides a watchful and supportive veil of protection under which James can get his life together. Both Leonard's and James's careers flourish...but then Leonard vanishes. When the reasons behind his mysterious absence are revealed, the book opens up in unexpected emotional ways. *My Friend Leonard* showcases a brilliant and energetic young writer rising to important new challenges—displaying surprising warmth, humor, and maturity—without losing his intensity. This book proves that one of the most provocative literary voices of his generation is also one of the most emphatically human.

A lifetime of lies, and a truth too painful to tell... From a USA Today Bestselling Author, the story of a mother who will do anything to give her daughter the life she deserves. When Suzanna Duff was ten years old, she lost her mama, and that's when the lies began. At first, they were just harmless little fibs, a way to hide her unbearable loneliness and the truth about a daddy who came home rip-roaring drunk every night. But in time, the lies grew bigger and now, when she is a grown woman with a daughter of her own, they threaten to destroy everything she loves. The irony of this situation is that Suzanna never planned to stay in Georgia, she was simply passing through, looking for a fresh start in New Jersey. Attending that wake with her daughter Annie, was a fluke. An opportunity to enjoy a free meal. It should have entailed nothing more than a solemn nod and a brief expression of sympathy but, Ida Parker, the grieving widow mistook her for her granddaughter who was carried off as an infant. Too embarrassed to do anything else, Suzanna played along. What harm was there in pretending to be someone else for a few hours? Hours turned into days and days into weeks; strangers became friends, love happened, and before long a year had flown by. Now the past is standing on her doorstep and Suzanna must decide to leave here and disappear as she has done before, or tell the truth and break the hearts of those she loves most.

PORCHLIGHT BOOKS JUNE 2022 NONFICTION BESTSELLER "I can see this book helping estranged parties who are equally invested in bridging a gap—it could be assigned reading for fractured families aspiring to a harmonious Thanksgiving dinner." —New York Times "Like all skills, these techniques take practice. But anyone who sincerely wants to bridge the gaps in understanding will appreciate this book. Guzmán is emphatic about making an effort to work on difficult conversations." —Manhattan Book Review We think we have the answers, but we need to be asking a lot more questions. Journalist Mónica Guzmán is the loving liberal daughter of Mexican immigrants who voted—twice—for Donald Trump. When the country could no longer see straight across the political divide, Mónica set out to find what was blinding us and discovered the most eye-opening tool we're not using: our own built-in curiosity. Partisanship is up, trust is down, and our social media feeds make us sure we're right and everyone else is ignorant (or worse). But avoiding one another is hurting our relationships and our society. In this timely, personal guide, Mónica, the chief storyteller for the national cross-partisan depolarization organization Braver Angels, takes you to the real front lines of a crisis that threatens to grind America to a halt—broken conversations among confounded people. She shows you how to overcome the fear and certainty that surround us to finally do what only seems impossible: understand and even learn from people in your life whose whole worldview is different from or even opposed to yours. Drawing from cross-partisan conversations she's had, organized, or witnessed

everywhere from the echo chambers on social media to the wheat fields in Oregon to raw, unfiltered fights with her own family on election night, Mónica shows how you can put your natural sense of wonder to work for you immediately, finding the answers you need by talking with people—rather than about them—and asking the questions you want, curiously. In these pages, you'll learn: How to ask what you really want to know (even if you're afraid to) How to grow smarter from even the most tense interactions, online or off How to cross boundaries and find common ground—with anyone Whether you're left, right, center, or not a fan of labels: If you're ready to fight back against the confusion, heartbreak, and madness of our dangerously divided times—in your own life, at least—Mónica's got the tools and fresh, surprising insights to prove that seeing where people are coming from isn't just possible. It's easier than you think.

The majority of us would not necessarily define ourselves as artists. We're parents, students, businesspeople, friends. We're working hard, trying to make ends meet, and often longing for a little more--more time, more love, more security, more of a sense that there is more out there. The truth? We need not look around so much. God is within us and he wants to shine through us in a million little ways. A Million Little Ways uncovers the creative, personal imprint of God on every individual. It invites the discouraged parent, the bored Christian, the exhausted executive to look at their lives differently by approaching their critics, their jobs, and the kids around their table the same way an artist approaches the canvas--with wonder, bravery, and hope. In her gentle, compelling style, Emily Freeman encourages readers to turn down the volume on their inner critic and move into the world with the courage to be who they most deeply are. She invites regular people to see the artistic potential in words, gestures, attitudes, and relationships. Readers will discover the art in a quiet word, a hot dinner, a made bed, a grace-filled glance, and a million other ways of showing God to the world through the simple human acts of listening, waiting, creating, and showing up.

Finalist for the 2020 Kirkus Prize for Nonfiction | One of Time Magazine's 100 Must-Read Books of 2020 | Longlisted for the 2020 Porchlight Business Book Awards "An entertaining quest to trace the origins and implications of the names of the roads on which we reside." —Sarah Vowell, The New York Times Book Review When most people think about street addresses, if they think of them at all, it is in their capacity to ensure that the postman can deliver mail or a traveler won't get lost. But street addresses were not invented to help you find your way; they were created to find you. In many parts of the world, your address can reveal your race and class. In this wide-ranging and remarkable book, Deirdre Mask looks at the fate of streets named after Martin Luther King Jr., the wayfinding means of ancient Romans, and how Nazis haunt the streets of modern Germany. The flipside of having an address is not having one, and we also see what that means for millions of people today, including those who live in the slums of Kolkata and on the streets of London. Filled with fascinating people and histories, *The Address Book* illuminates the complex and sometimes hidden stories behind street names and their power to name, to hide, to decide who counts, who doesn't—and why.

Something is going wrong on many college campuses in the last few years. Rates of anxiety, depression, and suicide are rising. Speakers are shouted down. Students and professors say

they are walking on eggshells and afraid to speak honestly. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: what doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths are incompatible with basic psychological principles, as well as ancient wisdom from many cultures. They interfere with healthy development. Anyone who embraces these untruths—and the resulting culture of safetyism—is less likely to become an autonomous adult able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to produce these untruths. They situate the conflicts on campus in the context of America's rapidly rising political polarization, including a rise in hate crimes and off-campus provocation. They explore changes in childhood including the rise of fearful parenting, the decline of unsupervised play, and the new world of social media that has engulfed teenagers in the last decade. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

How Big Is A Million? Revell

Is my ordinary, everyday life actually significant? Is it okay to be fulfilled by the simple acts of raising kids, working in an office, and cooking chicken for dinner? It's been said, "Life is not measured by the number of breaths we take, but by the number of moments that take our breath away." The pressure of that can be staggering as we spend our days looking for that big thing that promises to take our breath away. Meanwhile, we lose sight of the small significance of fully living with every breath we take. Melanie Shankle, New York Times bestselling author and writer at The Big Mama Blog tackles these questions head on in her fourth book, Church of the Small Things. Easygoing and relatable, she speaks directly to the heart of women of all ages who are longing to find significance and meaning in the normal, sometimes mundane world of driving carpool to soccer practice, attending class on their college campus, cooking meals for their family, or taking care of a sick loved one. The million little pieces that make a life aren't necessarily glamorous or far-reaching. But God uses some of the smallest, most ordinary acts of faithfulness—and sometimes they look a whole lot like packing lunch. Through humorous stories told in her signature style, full of Frito pie, best friends, the love of her Me-Ma and Pa-Pa, the unexpected grace that comes when we quit trying to measure up, and a little of the best TV has to offer, Melanie helps women embrace what it means to live a simple, yet incredibly meaningful life and how to find all the beauty and laughter that lies right beneath the surface of every moment.
