In "Toward a Theory of Peace," completed in 1997 and published for the first time here, she delves into a vast literature in psychology, anthropology, archeology, sociology, and history to examine the ways in which changing moral beliefs came to stigmatize forms of "socially sanctioned violence" such as human sacrifice, cannibalism, and slavery, eventually rendering them unacceptable. Could the same process work for war? Edited and with an introduction by political scientists Matthew Evangelista (Cornell University) and Neta C. Crawford (Boston University), both of whom worked with Forsberg.

***** THE ULTIMATE BATTLE FOR POWER, PRIVILEGE AND MONEY... London in the 1890s: nicely brought-up girls focus on one thing and one thing alone: marriage. The Season in London and,

the ultimate goal, Coming Out as a debutante are therefore vital in leading them along this path. But along the way they have to survive a terrifying few months, a make-or-break time in which their family's hopes for them can only be fulfilled through a proposal. For Lady Emily Persse, Coming Out means leaving her beloved Ireland and its informalities for England and its stricter codes. For Portia Tradescant, released from the boredom of life in the English countryside, it means trying to get through the Season despite the best efforts of her eccentric Aunt Tattie. For beautiful May Danby, the Season is an entré e to a whole other life, worlds away from her strict convent upbringing in Yorkshire. A London Season is not just about the debutantes themselves. It is as much about the women who launch them, and the Society which supports their way of life. It is also about the battle for power, privilege and money, fought, not in the male tradition upon the battlefield, but in the female tradition...in the ballroom.

This study affords an entirely new view of the nature of modern popular entertainment. American vaudeville is here regarded as the carefully elaborated ritual serving the different and paradoxical myth of the new urban folk. It demonstrates that the compulsive myth-making faculty in man is not limited to primitive ethnic groups or to serious art, that vaudeville cannot be dismissed as meaningless and irrelevant simply because it fits neither the criteria of formal criticism or the familiar patterns of anthropological study. Using the methods for criticism developed by Susanne K. Langer and others, the author evaluates American vaudeville as a symbolic manifestation of basic values shared by the American people during the period 1885-1930. By examining vaudeville as folk ritual, the book reveals the unconscious symbolism basic to vaudeville-in its humor, magic, animal acts, music, and playlets, and also in the performers and the managers -- which gave form to the dominant American myth of success. This striking view of the new mass man as a folk and of his mythology rooted in the very empirical science devoted to dispelling myth has implications for the serious study of all forms of mass entertainment in America. The book is illustrated with a number of striking photographs.
