This guide is designed for novices and advanced iPhone/iOS users alike. The tips and instructions here are tailored to the iPhone 6 and iOS 8, but you'll find plenty of relevant information for older iPhone models and older versions of the software. Just be aware that iPhone 6 and iOS 8 have introduced quite a few new features that may not be available on older iPhones! We've broken things down into six major parts. Part 1: Meet Your iPhone will help you unpack the box, learn how to interact with your iPhone, and glide through the set up process. Part 2: Getting to Know Your iPhone will introduce you to the basic features and navigational system of the device. Part 3: Mastering Your Preinstalled Apps will walk you through the twenty preinstalled apps in detail to help you master what's available right out of the box. Part 4: Making It Your Own guides you through customization and personalization. Part 5: Maintenance and Security will help you keep your iPhone healthy and safe. Finally, Part 6: Must-Have Apps for Your iPhone includes a list of 46 of our favorite apps - we hope you enjoy them as much as we do! There's a lot of information here, but don't feel like you need to absorb it all at once. Think of this guide as a friendly support system for you as you learn to use and enjoy this incredible piece of consumer technology. If you're new to iPhone or to iOS, start by reading through Parts 1 and 2. This should get you on your feet. Be sure to look at Part 5 to learn how to care for your new iPhone. You may want to use Parts 3, 4, and 6 as reference material. You can read them straight through from start to finish or just browse the table of contents for the information most helpful to you. These chapters will also be helpful for experienced users who want to get the most out of iPhone 6 and iOS 8. Few devices are as painless to use as the iPhone - we hope you have fun and enjoy the journey. Now let's get started!

The iPod Nano has been through seven different iterations since its introduction in 2006. Perhaps even more so than with the much-heralded iPhone and iPad, the Nano is Apple's favorite device to experiment with: larger capacities, different screens, complete redesign – the Nano has been a lot of different things over the years. But this seventh generation is something else entirely – a multi-touch powerhouse that features pretty much everything you'd ever want in an MP3 player, and a few things you didn't even know you'd need. This guide will take you through the ins and outs of the iPod Nano – from working with iTunes to using the built-in pedometer. We'll show you everything you need to know, saving the fluff for people who have time to waste. Ready? Let's do this!

Word processing used to be synonymous with Microsoft Word; times have changed a lot over the years, and today there are plenty of options. On Apple products there is notably Pages—a simple, yet powerful word processing software that creates beautiful documents: from reports and newsletters to posters and fliers. If you are already familiar with Microsoft Word, then you'll have no problem getting started because it shares many of the same features. But there's still a lot of features to get to know if you want to get the most from the software. If you want to create professional documents from your iPad then this book will show you how. It also includes short exercises so you aren't just learning about the features, you are getting hands-on with them. While screenshots come from the iPad, Pages works almost exactly the same for iPhone, so you'll have no problem using Pages on any device that Pages is installed on.

Even if you haven't used GarageBand for iPhone before, chances are you've heard a lot about it. When this iOS version of Apple's popular GarageBand for Mac application debuted in 2011, rave reviews began rolling in, and Apple has improved its performance and added features since then. If you've ever used GarageBand for Mac, you'll find yourself quite	

comfortable here -- the two apps have a lot in common. If you haven't, don't worry -- we cover everything you'll need to know in this guide. But, either way, prepare yourself for a unique experience. That's because of the unique touch interface of the iPhone. Apple's GarageBand for iPhone app features several great software instruments that you can play just by touching the screen. This makes the experience of playing a guitar, for instance, or a drum set very natural for anyone who's ever played a musical instrument, and much more fun! Let Minute Help show you how!
