In this book, you will learn about the different types of foundations, including private independent, corporate, family, and community, and how to identify a foundation to fund your project. You will learn how to qualify for grants; how to write a proposal; how to locate foundations in your subject area, geographic area, and that provide the support you need; and how to fill out a grant application. How to Get Your Share of the 30-Plus Billion Dollars Being Offered by U.S. Foundations will also teach you how to create an effective proposal by walking you through each section, including the cover letter, the executive summary, the statement of need, the goals and objectives, the specific and measureable outcomes, the assessment process, and the budget. You will even learn how to write letters of inquiry that will grab the foundation's attention.This book is filled with valuable information for organizations seeking funding from foundations. In addition to the list of directories and resources we have compiled, there are also insightful interviews with foundation officers and grant recipients, as well as sample proposals, letters, worksheets, and checklists. By using these tools and following the advice in this comprehensive guide, you will be able to find funding and achieve your organization's goals.

In many international settings, regional economies are declining resulting in lowered opportunities for these communities. This result attacks the very fabric of cohesion and purpose for these regional societies, and increases social, health, economic and sustainability problems. Community informatics research, education and practice is an emerging area in many countries, which

seeks to address these issues. The primary objective of Using Community Informatics to Transform Regions is to provide leaders, policy developers, researchers, students and community workers with successful strategies and principles of Community Informatics to transform regions. This book embraces an integrative cross-sectoral approach in the use of Community Informatics to increase both social and cultural capital as a means to increased sustainability for regional communities.
