Blindsight Open Road + Grove/Atlantic
‘If I lose the light of the sun, I will write by candlelight, moonlight, no light, If I lose paper and ink, I will write in blood on forgotten walls. I will write always. Into the Water Simon and Schuster
Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

For the past twenty-five years, Henry Rollins has searched out the most desolate corners of the Earth--from Iraq to

Afghanistan, Thailand to Mali, and beyond--articulating his observations through music and words, on radio and television, and in magazines and books. Though he's known for the raw power of his expression, Rollins has shown that the greatest statements can be made with the simplest of acts: to just bear witness, to be present. In Occupants, Rollins invites us to do the same. The book pairs Rollins's visceral full-color photographs--taken in Bangladesh, Burma, Cambodia, India, Indonesia, Northern Ireland, Saudi Arabia, South Africa, and elsewhere over the last few years--with writings that not only provide context and magnify the impact of the images but also lift them to the level of political commentary. Simply put, this book is a visual testimony of anger, suffering, and resilience. Occupants will help us realize what is so easy to miss when tragedy and terror become numbing, constant forces--the quieter, stronger forces of healing, solidarity, faith, and even joy.

“ A precisely crafted and bracingly honest ” memoir of war and its aftershocks from the New York Times – bestselling author of Matterhorn (The Atlantic). In 1968, at the age of twenty-three, Karl Marlantes was dropped into the highland jungle of Vietnam, an inexperienced lieutenant in command of forty Marines who would live or die by his decisions. In his thirteen-month tour he saw intense combat, killing the enemy and watching friends die. Marlantes survived, but like many of his brothers in arms, he has spent the last forty years dealing with his experiences. In What It Is Like to Go to War, Marlantes takes a candid look at these experiences and critically examines how we might better prepare young soldiers for war. In the past, warriors were prepared for battle by ritual, religion, and literature—which also helped bring them home. While contemplating ancient works from Homer to the Mahabharata, Marlantes writes of the daily contradictions modern warriors are subject to, of being haunted by the face of a young North Vietnamese soldier he killed at close quarters, and of how he finally found a way to make peace with his past. Through it all, he demonstrates just how poorly prepared our nineteen-year-old warriors are for the psychological and spiritual aspects of the journey. In this memoir, the New York Times – bestselling author of Matterhorn offers “ a well-crafted and forcefully argued work that contains fresh and important insights into what it ’ s like to be in a war and what it does to the human psyche ” (The Washington Post).

Named one of Vulture ’ s Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent

teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In The Cult of Smart, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we ’ ll never achieve this dream until the Cult of Smart is destroyed.

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In Speculative Everything, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “ what if ” questions that are intended to open debate and discussion about the kind of future people want (and do not want). Speculative Everything offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

In this tense and twisty latest from Norway's maven of crime, time shifts between Inspector Sejer's interrogation of the accused Ragna Reigel and the shocking events that led up to her arrest. She must have order in her life, and she does, until one day she finds a letter in her mailbox with her name on the envelope and a clear threat written in block capitals on the sheet inside. With the arrival of the letter, and eventually others like it, Ragna's carefully constructed life begins to unravel into a nightmare--threatened by an unknown enemy, paranoid and unable to sleep, her isolation becomes all the more extreme. Ragna's distress does culminate in a death, but she is the perpetrator rather than the victim. The Whisperer shifts between Inspector Sejer's interrogation of Ragna and the shocking events that led up to her arrest. Sejer thinks it is an open-and-shut case, but is it? Compelling and unnerving, The Whisperer probes plausible madness in everyday life and asks us to question assumptions even in its final moments. Unraveller Scholastic Inc.

A novelist and short-story writer, Willa Cather is today widely regarded as one of the foremost American authors of the twentieth century. Particularly renowned for the memorable women she created for such works as My Antonia and O Pioneers!, she pens the portrait of another

formidable character in The Song of the Lark. This, her third novel, traces the struggle of the woman as artist in an era when a woman's role was far more rigidly defined than it is today. The prototype for the main character as a child and adolescent was Cather herself, while a leading Wagnerian soprano at the Metropolitan Opera (Olive Fremstad) became the model for Thea Kronborg, the singer who defies the limitations placed on women of her time and social station to become an international opera star. A coming-of-age-novel, important for the issues of gender and class that it explores, The Song of the Lark is one of Cather's most popular and lyrical works. Book jacket.
