Teaching is as much about students as it is about curriculum, and no one understands this better than middle and high school teachers. But even the most dedicated teacher can sometimes feel defeated by the challenge of reaching distracted, disconnected, and defiant adolescents. Drawing on her own experience as a high school teacher, Katy Ridnour shares an approach to classroom management that will help you spend less time "dealing with" your adolescent learners and more time inspiring them to be their best selves in school and beyond. Managing with heart means accepting teenage students as they are and recognizing what they need: a connection with the curriculum; a sense of order; and most essentially, a sense that someone cares. In this book, you'll find practical strategies for \* Balancing care and discipline \* Interacting with students and their parents \* Establishing classroom routines that keep students on task \* Communicating expectations and ensuring accountability \* Handling common challenges, from classroom noise and personality conflicts to inappropriate clothing and disrespectful language \* Building trust and helping students feel emotionally and intellectually safe. Vivid, real-life examples and questions for reflection make this a perfect choice for faculty reading groups and any middle or high school teacher looking to create a positive learning community, enhance students' confidence and interpersonal skills, and rediscover the reward of being a teacher.

Through the poetry they share and narratives in which they reveal their most intimate thoughts about themselves and one another, their words and lives show what lies beneath the skin, behind the eyes, beyond the masquerade.

"If the writing workshop is always changing, always haphazard, children remain pawns waiting for their teacher's agenda. For this reason and others, I think it is so important for each day's workshop to have a clear, simple structure. Children should know what to expect. This allows them to carry on; it frees the teacher from choreographing activities and allows time for listening. How we structure the workshop is less important than that we structure it." -Lucy Calkins Learn how to take your students from pictorial story telling into fluent writing and how Lucy Calkins and her colleagues launch a rigorous and responsive primary writing workshop. Through 2 foundational books-The Nuts and Bolts of Teaching Writing and Launching the Writing Workshop-and eight online video clips, Lucy and her colleagues provide the strategies, lesson plans, and tools you'll need to jump in and teach writing to your students in powerful, lasting ways. The Nuts and Bolts of Teaching Writing equips you to teach a productive, well-managed writing workshop, introduces you to the methods that underlie all writing instruction, and helps you plan a yearlong curriculum in the teaching of writing. In addition to guiding you through the classroom systems and teaching structures that are the foundation of a primary writing workshop, this comprehensive overview also includes chapters about working within developmental stages of writing, supporting English language learners, and assessing writers. Whether you have taught in a writing workshop for years or are just learning the term, Launching the Writing Workshop will offer you a comprehensive plan for the first four weeks of a primary writing workshop. Lucy and Leah Mermelstein present both the precise language and pacing of their teaching and the reasoning behind it, so that you can create the same powerful experiences with your own children. Whether writers write just a few labels on items in their pictures or write paragraphs, by the end of this unit all children know that in order to write, a writer fills him or herself with an idea, plans how the text will go, and then draws and writes as best he and she can, working to make the page match the writer's vision. The eight accompanying video clips convey the inner workings of writing workshops in a variety of primary classrooms. These live-from-the-classroom video clips are supported and enhanced by an optional voice-over coaching commentary from Lucy that explains the teaching moves and strategies. Small Victories is Samuel Freedman's remarkable story of life on the front lines in the sort of high school that seems like a disaster with walls--old, urban, overcrowded, and overwhelmingly minority. Seaward Park High School, on Manhattan's Lower East Side, has been ranked among the worst 10 percent of high schools in the state--yet 92 percent of its graduates go on to higher education. The reason is dedicated teachers, one of whom, English instructor Jessica Siegel, is the subject of Freedman's unforgettably dramatic humanization of the education crisis. Following Siegel through the 1987-88 academic year, Freedman not only saw a master at work but learned from the inside just how a school functions against impossible odds. Small Victories alternates Jessica's experiences with those of others at Seaward Park, and as we come to know intimately a number of the astonishing students and staff, Small Victories reveals itself as a book that has the power to change the way we see our world.

"Workshops are deliberately kept simple and predictable, like an art studio or a researcher's laboratory, because it is the work itself that is ever changing and complex....Each day's teaching in a workshop does not set up a new hoop for the students to all jump through in sync. Instead, for the bulk of time during each day, students carry on with their work. As they do so, they draw upon a growing repertoire of skills, tools, strategies, and habit." -Lucy Calkins Learn how to teach students to read with increasing sophistication and personal engagement and how Lucy Calkins and her colleagues launch a rigorous and responsive intermediate reading workshop. Through 2 foundational books—*A Guide to the Reading Workshop* and *Building a Reading Life*—and eight online video clips, Lucy and her colleagues provide the strategies, lesson plans, and tools you'll need to lead strong, efficient reading workshops in upper-elementary classrooms. *A Guide to the Reading Workshop* crystallizes the reading workshop. After detailing the essential principles of reading workshop instruction, Lucy describes how to develop engaging minilessons that develop the skills of proficient readers. In the chapters that follow, Lucy presents different ways to lead small-group work and one-to-one conferences. In addition to describing the predictable methods and structures of a reading workshop, select chapters consider various ways to assess readers and track their development, how to use data to inform your instruction, and how to differentiate instruction and prepare for standardized reading tests. *Building a Reading Life* launches the reading workshop. In this unit of study Lucy and Kathleen Tolan pull out all stops in an effort to help all their students become avid readers. They wear a love of reading on their own sleeves, help students fashion their identities as people who care about reading, and create a social life that revolves around shared books; above all, they help students develop a sense of agency about their reading lives, taking responsibility for becoming the kinds of readers who not only make sense of books but also let books change their lives. Lucy and Kathleen meanwhile induct children into the structures, routines, and habits of a reading workshop. Students learn how to choose books that are just right in level and interest, to carry books between home and school, to collect and study data about their reading rates and volume, and to push themselves to read with increasing stamina, fluency, and volume. In reading partnerships, children learn to retell and summarize texts and to share ideas that are grounded in the specifics of their books. Through the eight accompanying video clips Lucy and other master teachers invite you to eavesdrop on their minilessons, small-group instruction, and conferences. Dramatic video clips let you sit alongside young readers as they engage in book clubs, reading partnerships, and inquiry groups. (Video clips are free for 6 months upon registration. Put away studies by Czerny. Put him and the others into a closet and turn the key. Instead, use these passages from music you intend to play—music by master composers—as building blocks for technique and musicianship. Suppose for a moment that we don't accept the notion that a good piano technique requires strength training, or that it is even really possible to “strengthen” the fingers to any noticeable degree, in the way that authors of yore would have us believe. Those concepts indeed have long ago been discredited. Suppose, too, we discard the notion that independence of fingers is a physical action and not instead a musical objective. Well, you might ask, for what then do we train? Let's use our knowledge of how the hand was designed to work in order to train for refined coordination. In this volume you will find ample material for just such a study. Here are threads of Bach Inventions, early Haydn episodes and mainstream Mozart. Here are passages from the grandeur of late Beethoven and the Romantic exuberance of Schumann and Chopin. Here are morsels from standard repertoire that, if used as part of your daily regimen, will at the very least provide a colossal head start on the building of skills, musicianship and a catalog of music you want to perform.

Jeffrey H. Tigay, A. M. Ellis Professor of Hebrew and Semitic Languages and Literatures at the University of Pennsylvania, master teacher and scholar extraordinaire, conservative rabbi and lifelong student of Torah receives due ovation in this exceptional volume, a tribute to his indelible impression on Jewish scholarship and pedagogy. The volume is arranged according to Professor Tigay ' s primary topics of interest: deuteronomic studies, ancient Israelite religion and its Near Eastern context, and ancient Israelite literary tradition. The reader will enjoy diverse studies such as “Gender Transformation and Transgression: Contextualizing the Prohibition of Cross-dressing in Deuteronomy 22:5, ” “The Problem of Evil in the Book of Job, ” and “Linen and the Linguistic Dating of P ” and will value the erudition of scholars such as Moshe Greenberg, Emanuel Tov, Gary Rendsburg, William Hallo, and Baruch Levine. In the customary appreciations and throughout the volume, colleagues, students, and friends laud Professor Tigay ' s intellectual tenacity, relational warmth, pedagogical prowess, and devotion to Torah. A former student aptly speaks for those who know him best: “A scholar ' s immortality lies in his or her work. It rests too in his or her students and in the respect won from his or her colleagues. A Festschrift like this one for Jeff Tigay is merely a token of that legacy, the acknowledgment by his students and colleagues that the work is indeed worth celebrating. ” This legacy will surely be a boon and delight to the reader.
