The instant New York Times bestseller, now in paperback: a moving tribute to female friendships, with the inspiring story of eleven girls and the ten women they became, from the coauthor of the million-copy bestseller *The Last Lecture*. As children, they formed a special bond, growing up in the small town of Ames, Iowa. As young women, they moved to eight different states, yet they managed to maintain an extraordinary friendship that would carry them through college and careers, marriage and motherhood, dating and divorce, the death of a child, and the mysterious death of the eleventh member of their group. Capturing their remarkable story, *The Girls from Ames* is a testament to the enduring, deep bonds of women as they experience life's challenges, and the power of friendship to overcome even the most daunting odds. The girls, now in their forties, have a lifetime of memories in common, some evocative of their generation and some that will resonate with any woman who has ever had a friend. *The Girls from Ames* demonstrates how close female relationships can shape every aspect of women's lives—their sense of themselves, their choice of men, their need for validation, their relationships with their mothers, their dreams for their daughters—and reveals how such friendships thrive, rewarding those who have committed to them. With both universal events and deeply personal moments, it's a book that every woman will relate to and be inspired by.

With almost a quarter of the world's migrants, Europe has been attempting to regulate migration and harmonize immigration policy at the European level. The central dilemma exposed is how liberal democracies can reconcile the need to control the movement of people with the desire to promote open borders, free markets and liberal standards. Gallya Lahav's book traces ten years of public opinion and elite attitudes toward immigration cross-nationally to show how and why increasing EU integration may not necessarily lead to more open immigration outcomes. Empirical evidence reveals that support from both elite and public opinion has led to the adoption of

restrictive immigration policies despite the requirements of open borders. Unique in bringing together original data on European legislators and national elites, longitudinal data on public opinion and institutional and policy analyses, this 2004 study provides an important insight into the processes of European integration, and globalization more broadly.

Set in the summer of 1939, this historical novel for readers aged 10-14 tells the story of a young girl who finds the strength to defy the social norms of her community when a dangerous man poses a threat to a friend. Twelve-year-old Angie Wallace and her friends embark on a quest to "love thy neighbor," which includes newcomer Jefferson Clement. But soon the girls begin to suspect that he's a dangerous man, even if the adults refuse to see it. Like Scout in *To Kill a Mockingbird*, the characters in this book must explore the nature of truth and justice as Angie struggles to stand up for what she knows is right. It's the calm before the storm of World War II in 1939 in small-town Messina, California. Angie Wallace and her friends have set out on a mission to "love thy neighbor"—even if that means inviting weird Dodie Crumper to join in their summer plans. But as they move through their neighborly to-do list, the girls can't help but notice that there's something strange about the sudden return of Jefferson Clement. He might be well-dressed and respected, yet with each interaction they become more aware of his dark intentions, especially when it comes to young girls. The adults in town either don't notice or ignore the danger he poses, but when Angie is the only witness to a terrible accident, she must make a choice that calls into question everything she understands about truth and justice. With a setting that blossoms to life from the first page, *When the Crickets Stopped Singing* is the story of a transformative summer in a young girl's life, when the idylls of childhood collide with the perils of the world beyond.

This book brings together historians from Great Britain, the United States, Germany, France, Canada, Austria, and Latvia who have worked and published on fraternisation between Prisoners of War and local women during either the First or Second World War, providing the first comparative study of this multi-faceted phenomenon in different belligerent countries. By focusing on prisoners as wartime migrants and studying the nature and impact of their interactions with the local female population, this book expands the existing framework on prisoner of war studies. Its substantial scope and comparative approach make it an important point of reference in the growing research field of POW studies.

The striking fact that abortion was among the first issues raised, after 1989, by almost all of the newly formed governments of East Central Europe points to the significance of gender and reproduction in the postsocialist transformations. The fourteen studies in this volume result from a comparative, collaborative research project on the complex relationship between ideas and practices of gender, and political economic change. The book presents detailed evidence about women's and men's new circumstances in eight of the former communist countries, exploring the

intersection of politics and the life cycle, the differential effects of economic restructuring, and women's public and political participation. Individual contributions on the former German Democratic Republic, Poland, the Czech Republic, Slovakia, Hungary, Serbia, Romania, and Bulgaria provide rich empirical data and interpretive insights on postsocialist transformation analyzed from a gendered perspective. Drawing on multiple methods and disciplines, these original papers advance scholarship in several fields, including anthropology, sociology, women's studies, law, comparative political science, and regional studies. The analyses make clear that practices of gender, and ideas about the differences between men and women, have been crucial in shaping the broad social changes that have followed the collapse of communism. In addition to the editors, the contributors are Eleonora Zielińska, Eva Maleck-Lewy, Myra Marx Ferree, Sharon Wolchik, Irene Dölling, Daphne Hahn, Sylka Scholz, Mira Marody, Anna Giza-Poleszczuk, Katalin Kovács, Mónika Várdi, Julia Szalai, Adriana Baban, Małgorzata Fuszara, Laura Grunberg, Zorica Mrsević, Krassimira Daskalova, Joanna Goven, and Jasmina Lukić.

Scholars and analysts seeking to illuminate the extraordinary creativity and innovation evident in European medieval cultures and their afterlives have thus far neglected the important role of religious heresy. The papers collected here - reflecting the disciplines of history, literature, theology, philosophy, economics and law - examine the intellectual and social investments characteristic of both deliberate religious dissent such as the Cathars of Languedoc, the Balkan Bogomils, the Hussites of Bohemia and those who knowingly or unknowingly bent or broke the rules, creating their own 'unofficial orthodoxies'. Attempts to understand, police and eradicate all these, through methods such as the Inquisition, required no less ingenuity. The ambivalent dynamic evident in the tensions between coercion and dissent is still recognisable and productive in the world today.

Dictators, Demagogues & The Coming Dark Age. Based on extensive first-hand reporting, this is a provocative look at a continent confronting demons it thought it had laid to rest. Once the world's bastion of liberal, democratic values, Europe is now having to confront demons it thought it had laid to rest. The old pathologies of anti-Semitism, fascism, populist nationalism, and territorial aggression are threatening to tear the European postwar consensus apart. In riveting dispatches from this unfolding tragedy, James Kirchick shows us the shallow disingenuousness of the leaders who pushed for the 'Brexit' vote, talks with the mild-mannered former accountant who is the charming face of Hungary's neofascist Jobbik party, examines how a vast migrant wave is exacerbating tensions between Europeans and their Muslim minorities, explores the rising anti-Semitism that causes Jewish schools and synagogues in France and Germany to resemble armed bunkers, and describes how Russian imperial ambitions are destabilising nations from Estonia to Ukraine
