Smell the chlorine, taste the hot chips and feel the burning concrete underfoot as you read these stories of Australian childhoods at the pool. Swimming is a central part of most Australian childhoods. We idealise beaches and surf, but for many kids the local pool – whether it's an ocean, tidal or a chlorinated pool – is where they pass summer days. Pools are places of imagination, daring, belonging, freedom, friendship and romance. For some they are places of hard-core swimming training. This delightful, nostalgic anthology brings together reflections and recollections about the swimming pools of childhood from a range of Australians of diverse ages and backgrounds, well known and not-so-famous, including Trent Dalton, Leah Purcell, Shane Gould, Bryan Brown and Merrick Watts. Evocative, funny and sometimes bittersweet, 28 people remember the pools that shaped their childhoods. Everyone who has ever dived into their local Olympic pool, bush waterhole or saltwater baths will want to submerge themselves in this beautiful book.

Drawing on his own memories of the best days of summer in the city, Gary Clement brings us an illustrated version of the beloved classic "Swimming, swimming in a swimming pool," full of fun and humor. The illustrations show a young boy and his friends spending a carefree day at the neighborhood pool. We see them walk to the pool together, change into their trunks and then spend hours swimming, cavorting, splashing and diving. The pool is full of moms, dads, other kids and babies, all

enjoying a chance to cool off on a hot summer day. The boy returns home, tired but happy, and falls asleep holding onto his goggles in anticipation of another delightful day at the pool. Includes a short explanation of the hand gestures for the song and a link to a video demonstration.

A Sunday at the Pool in Kigali is a moving, passionate love story set amid the turmoil and terror of Rwanda's genocide. From nineteenth-century public baths to today's private backyard havens, swimming pools have long been a provocative symbol of American life. In this social and cultural history of swimming pools in the United States, Jeff Wiltse relates how, over the years, pools have served as asylums for the urban poor, leisure resorts for the masses, and private clubs for middle-class suburbanites. As sites of race riots, shrinking swimsuits, and conspicuous leisure, swimming pools reflect many of the tensions and transformations that have given rise to modern America.

You might walk right by a vernal pool and not notice it. Often mistaken for mere puddles in the woods, vernal pools are the source of life for many interesting creatures. These secret pools form every year when low places on the forest floor fill up with rain and melted snow. They soon become home to hatching wood frogs, spotted salamanders, and fairy shrimp. Even in late summer and fall, creatures such as turtles and snakes rely on these places for shelter and food.

"A fine entertainment." - The Times

From Kiana Davenport, the bestselling author of *Song of the Exile* and *Shark Dialogues*, comes another mesmerizing novel about her people and her islands. Told in spellbinding and mythic prose, *House of Many Gods* is a deeply complex and provocative love story set against the background of Hawaii and Russia. Interwoven throughout with the indelible portrait of a native Hawaiian family struggling against poverty, drug wars, and the increasing military occupation of their sacred lands. Progressing from the 1960s to the turbulent present, the novel begins on the island of O'ahu and centers on Ana, abandoned by her mother as a child. Raised by her extended family on the "lawless" Wai'anae coast, west of Honolulu, Ana, against all odds, becomes a physician. While tending victims of Hurricane 'Iniki on the neighboring island of Kaua'i, she meets Nikolai, a Russian filmmaker with a violent and tragic past, who can confront reality only through his unique prism of lies. Yet he is dedicated to recording the ecological horrors in his motherland and across the Pacific. As their lives slowly and inextricably intertwine, Ana and Nikolai's story becomes an odyssey that spans decades and sweeps the reader from rural Hawaii to the forbidding Arctic wastes of Russia; from the poverty-stricken Wai'anae coast to the glittering harshness of "new Moscow" and the haunting, faded beauty of St. Petersburg. With stunning narrative inventiveness, Davenport has created a timeless epic of loss and remembrance, of the search for family and identity, and, ultimately, of the redemptive power of love.

This is how it's done. This is why it's done this way. This is the result you can expect if you do it. These three pieces of information inform a conclusion about every part of each of our lives. Yet it is these three pieces of information that most often set an insidious trap—a trap that has held the imaginations of

generations captive to the belief that because they are doing the best they can do, they are accomplishing the best that can be done. And while each of these three statements are true, not one of them is the truth. Dive deeper with bestselling author Andy Andrews as he shares his unique philosophy regarding foundational thinking. Through his unique and captivating storytelling, Andy helps you search for the reality that lies beyond the boundaries established in the name of "best practices," "industry standards," or "the way things are done." "Gorgeously tender at its core...beautiful, heartstopping...Family Life really blazes." —Sonali Deraniyagala, New York Times Book Review Hailed as a "supreme storyteller" (Philadelphia Inquirer) for his "cunning, dismaying and beautifully conceived" fiction (New York Times), Akhil Sharma is possessed of a narrative voice "as hypnotic as those found in the pages of Dostoyevsky" (The Nation). In his highly anticipated second novel, *Family Life*, he delivers a story of astonishing intensity and emotional precision. We meet the Mishra family in Delhi in 1978, where eight-year-old Ajay and his older brother Birju play cricket in the streets, waiting for the day when their plane tickets will arrive and they and their mother can fly across the world and join their father in America. America to the Mishras is, indeed, everything they could have imagined and more: when automatic glass doors open before them, they feel that surely they must have been mistaken for somebody important. Pressing an elevator button and the elevator closing its doors and rising, they have a feeling of power at the fact that the elevator is obeying them. Life is extraordinary until tragedy strikes, leaving one brother severely brain-damaged and the other lost and virtually orphaned in a strange land. Ajay, the family's younger son, prays to a God he envisions as Superman, longing to find his place amid the ruins of his family's new life. Heart-wrenching and darkly funny, *Family Life* is a universal story of a boy torn between duty and his own survival. *Hitler and His Secret Partners* NewSouth

A wonderfully funny, perceptive novel *The Risk Pool* is set in Mohawk, New York, where Ned Hall is doing his best to

grow up, even though neither of his estranged parents can properly be called adult. His father, Sam, cultivates bad habits so assiduously that he is stuck at the bottom of his auto insurance risk pool. His mother, Jenny, is slowly going crazy from resentment at a husband who refuses either to stay or to stay away. As Ned veers between allegiances to these grossly inadequate role models, Richard Russo gives us a book that overflows with outsized characters and outlandish predicaments and whose vision of family is at once irreverent and unexpectedly moving. In the traditions of Thornton Wilder and Anne Tyler, *The Risk Pool* was hailed by *The New York Times* as "...superbly original and maliciously funny. Russo proves himself a master at evoking the sights, feelings, and smells of a town."

Feed your boss's ego. Dress for success. And don't let your heels trip you up on the corporate ladder. Millions of women have held the position of secretary, alternately lauded as a breakthrough opportunity and excoriated as dead-end busy work. From the female pioneers who infiltrated Capitol Hill offices during the Civil War to today's tech-savvy administrative assistants, secretaries have withstood criticism for abandoning their rightful sphere (the home), weathered the dubious advice of secretarial guide-books, taken hits from feminists and antifeminists alike, and demanded the right to resist making coffee—all while making their bosses look good. In *Swimming in the Steno Pool*, author-secretary Lynn Peril profiles the various incarnations of the secretary, from pliable, sexy mate of the "office husband" to postfeminist executive-in-training, drawing inspiration from a wide range of "femorabilia" and secretarial guidebooks of yesteryear. Featuring an array of fabulous illustrations promoting office equipment and office girls alike, Peril delivers a feisty, witty celebration of the women who've been running the show for decades.

Lady Hale is an inspirational figure admired for her historic achievements and for the causes she has championed. *Spider Woman* is her story. As 'a little girl from a little school in a little village in North Yorkshire', she only went into the law because her headteacher told her she wasn't clever enough to study history. She became the most senior judge in the country but it was an unconventional path to the top. How does a self-professed 'girly swot' get ahead in a profession dominated by men? Was it a surprise that the perspectives of women and other disadvantaged groups had been overlooked, or that children's interests were marginalised? A lifelong smasher of glass-ceilings, who took as her motto 'women are equal to everything', her landmark rulings in areas including domestic violence, divorce, mental health and equality were her attempt to correct that. As President of the Supreme Court, Lady Hale won global attention in finding the 2019 prorogation of Parliament to be unlawful. Yet that dramatic moment was merely the pinnacle of a career throughout which she was hailed as a pioneering reformer. Wise, warm and inspiring, *Spider Woman* shows how the law shapes our world and supports us in

crisis. It is the story of how Lady Hale found that she could overcome the odds, which shows that anyone from similar beginnings will find that they can cope too.
