The economic heart of South China, the Pearl River Delta is both agriculturally and financially fertile and is one of the most developed parts of China. Intensely cultivated land is interspersed with some of China's newest and fastest-growing cities, which are linked by some of the country's best and most integrated transport services. The Delta's location makes it a popular trip from Hong Kong and a major gateway to enter China itself. Foremost among the Delta's gang of youthful upstart cities is Shenzhen, which was the first of China's Special Economic Zones (SEZs) and has grown from nothing to challenge the traditional heart of the region, Guangzhou, in less than 30 years. While Shenzhen has little in the way of historic sights, it offers shopping, skyscrapers and theme parks along with some insight as to what China's future looks like. Seventy miles to the north, Guangzhou has a longer history, but is also reaping the economic whirlwind. It's definitely worth a quick stop for its blend of Cantonese cuisine, markets, colonial relics and the gritty taste of a real Chinese city. With a population of seven million and long known in the West as Canton, modern Guangzhou provides many visitors with their first glimpse of a mainland Chinese city. Frenetically busy, polluted and steamily hot in summer, Guangzhou's conventional sights are comparatively sparse, but the city is renowned worldwide for its cooking and is worth visiting on these grounds alone. Before Hong Kong rose to prominence, Guangzhou was one of China's primary trading posts and as a result it has a wide ethnic diversity, including a large Hui (Muslim) population, and a smattering of colonial architecture, much of which is found on charming Shamian Island. Guangzhou is at the heart of the south's economic revolution. Although it is still undoubtedly a polluted city, attention is being paid to the environment, albeit often only in the most aesthetic sense. Every time I visit I notice new areas of greenery and the city is becoming more and more visitor-friendly. There is an ever-expanding subway network, a new airport and improved links with other Pearl River Delta destinations. There are also a host of sights to visit within a two-hour transport radius of Guangzhou and the city makes a good base from which to explore smaller towns such as Huizhou and Zhaoqing. This guide is based on our 640-page China Adventure Guide. Following are some reviews of that book: "We travel to grow â€" Adventure Guides show you how. Experience the places you visit more directly, freshly, intensely than you would otherwise â€" sometimes best done on foot, in a canoe, or through cultural adventures like art courses, cooking classes, learning the language, meeting the people. This can make your trip life-changing, unforgettable. All of the detailed information you need is here about the hotels, restaurants, shopping,

sightseeing. But we also lead you to new discoveries, turning corners never before turned, helping you learn about the world in a new way â€" Adventure Guides make that possible." "Having traveled extensively through China over many years, I can see the book's intimacy, not only with the locations, but also with the locals in each place. The author reveals the secrets that he's learned from his long association with China." (Jason Williams, Managing Director, Grasshopper Adventures). "A thorough guide not only to traveling in China but also to the country's history and culture, this should satisfy the novice and seasoned traveler alike. Each city and region is covered from all angles, including activities for those traveling with children. An informative read for those unfamiliar with the country and an excellent way to brush up for the more experienced traveler, this is an excellent guide for planning a China vacation." (Publishers Weekly).

The rumblings of war in distant countries mattered little to Danny McClain. Growing up in Chicago, his world revolved around after-school jobs, a rescued beagle, his pen pal in Holland, and the Cubs' chance to go to the World Series. Then, in December of 1941, during his first year at Northwestern University, news of the attack on Pearl Harbor hit much too close to home. After a series of unexpected events over the next couple of years, Danny found himself in the co-pilot seat of a B-17, stationed with the 390th Bomb Group in Framlingham, England. Anya Versteeg had been just a teenager when Hitler's troops invaded her homeland of Holland in May of 1940. Forced to grow up much too fast, the feisty preacher's daughter eagerly immersed herself in the Dutch Resistance and its many efforts to thwart the enemy. Certain that God had turned His back on Holland, she closed her heart and did whatever she had to do to save her country before it was too late. By 1945, the people of Occupied Holland were starving. Cut off from the outside world in retaliation for their failed attempt to oust the Germans invaders, the Dutch had no food, no electricity, no fuel, and little hope of surviving. Thousands were dying every day. Then, just days before the war ended, help came to The Netherlands like manna from heaven. Operation Chowhound held special meaning for Lieutenant Danny McClain. Somewhere below in the battered land of tulips and windmills was the girl who needed rescuing-after rescuing so many others. And he would move heaven and earth to find her.

Popular fiction follows literature professors wherever they go. At coffee shops or out for drinks, after faculty meetings or classes, even at family reunions – they are persistently pressed to talk about bestselling novels. Questions immediately follow: What do I mean when I say a book is "good"? Why do contemporary novels like these, conversations like these, matter to professors of literature? Shouldn't they be spending their time re-reading *The Great Gatsby*? *The Ulysses Delusion* confronts these questions and answers their call for more engaged conversations about books. Through topics like the Oprah's Book Club, Harry Potter, and Chick Lit, Cecilia Konchar Farr explores the lively, democratic, and gendered history of novels in the US as a context for understanding how avid readers and literary professionals have come to assess them so differently.

November 1941. After the dramatic sinking of his first command - HMS Defiant - Lieutenant Commander George Steadfast needs a break. But less than a week later he is called to the Admiralty. He is being sent straight off on another mission. And the orders for this one come straight from Sir Winston Churchill. Steadfast is being sent to the Mediterranean to rescue an Albanian scientist called Janos Dobransky. Dobransky has invented a compound that is vital to the war effort. Unaware of his importance, the Italians have captured him and are keeping him and other prisoners in a fortress off the Albanian coast. It is of vital importance that he is rescued before the Germans realise who he is. The mission is top secret, and Steadfast's orders are clear: Get Dobransky back. No high jinks. No bravado. Just straight in and straight out. With the fortress manned from all sides, how will Steadfast manage to infiltrate the island? Can he complete his mission without the Nazi's catching wind of what Churchill is up to? Or will his latest - and most daring - mission be his last...? 'Action This Day' is a gripping naval thriller that combines convincing period detail with full-throttle story-telling, with almost every incident based on a true event in one of the thousands of convoys during the Second World War. It is the follow up to 'First Command'. 'You can taste the salt and feel the danger. A fantastic read.' - Tom Kasey, best-selling author of 'Trade Off'. Richard Freeman graduated in mathematics before following a career in distance education. He now writes on naval history. His other books include 'First Command', 'Midway', 'Pearl Harbor' and 'Coral Sea 1942'. Endeavour Press is the UK's leading publisher of digital books.

Selling one's daughter isn't as rare as you'd think. But to the Captain of a pirate ship? It's the best thing that has ever happened to a sheltered young lady who quickly discovers she has a taste for adventure. Captain Samuels: We were pirates. Er, traders. Yet even we were repulsed by women being sold like chattel. But I couldn't stand by while her father sold her, treating her as if she were worthless. She was a sweet, hard working girl. Her delicate blue eyes called to me even more than the sea itself. The only thing I wanted now was to keep her safe. In my arms. In my bed. My biggest fear was that I might hurt the tiny lass. I could never let that happen. Flora: A complete stranger asked me what I wanted. I'd never been asked

that question before. The Captain was the first man to ask me to speak my mind. I made my choice - to sail away for a life of adventure rather than stay under my father's thumb. The world was bigger out on the open sea. The colors were brighter. The feelings were... Strangely deep and powerful. I just couldn't tell if the Captain felt the same. He was so kind to me, treating me as if I were precious. Every time he touched me, I wanted to feel like I was his to enjoy. As my life finally became my own, I began to make my own rules. I'd learn to speak up for what I need.

\*\*\*Author's Note: I write contemporary romance. How the blazes did a pirate tale appear? Look, sometimes these things just happen. If this doesn't float your boat, sail on past. Or raise the flag and come aboard for a sweet and steamy adventure! Even More Important Note: If you're looking for perfect historical accuracy... Er, keep looking. This is fiction. Please consult history books for precision. This is heart fluttering, pearl clutching, knicker dampening romance.\*\*\* This shy girl / alpha male romance is a standalone novel. No cliffhangers, no cheating, and a sweet HEA. Please look up and to the left for the "Follow This Author" button for updates!

Of Windmills and War

November 1942. Hitler's Sixth Army is in danger of being surrounded at Stalingrad. An Allied invasion of

North Africa is expected soon. For the first time in the war, Hitler senses defeat. Bold action is

needed. The Führer has no faith in his generals. He decides to take action himself. The result is

'Operation Armageddon': a cargo U-boat filled with 250 tons of high explosive. Its target is a deadly

secret - not even the U-boat's commander is allowed to know the purpose of his mission. Helberg, the Cap

d'Enfer base commander is ordered to take delivery of an out-of-service cargo U-boat and prepare it for

Armageddon. Marie Le Faucheur, the local Resistance leader, works as a secretary on the base. Her reports

on the preparations of the U-boat soon reach Admiralty House in London. Lieutenant Commander

James Bosanquet takes charge of the case. At first, Bosanquet's boss, Admiral Forster, takes little

interest in the U-boat. That is, until he receives a

message from Marie to say that Armageddon 'will be devastating for the enemy in the Mediterranean'. Forster decides to send Bosanquet to help Marie organise the sabotaging of the U-boat. His drop by a Lysander is met both by Marie and a German patrol. So begins the trail of disasters that overtake Marie and Bosanquet. The sabotage attempt fails and the U-boat departs. In desperation, the Admiralty despatches the destroyer HMS Ideal to pick up Bosanquet from a beach at Cap d'Enfer before going in search of the deadly U-boat. Meanwhile, the U-boat officers and crew are trying to understand why they have half a dozen SS men on board. The role of the SS becomes clear when the U-boat commander reads the second part of his orders. They are so diabolical that he refuses to obey them. The SS officer arrests him and takes command of the U-boat. There are further control tussles and a mutiny on the U-boat before the fateful hour of fulfilling its secret order comes. At that hour, HMS Ideal arrives on the scene. In the U-boat there is war between rival commanders, the seamen and the SS. On the destroyer, the lacklustre commander is at loggerheads with the more swashbuckling Bosanquet. Under unbelievable pressure, the true natures of the key characters - a murderous SS officer, a mild U-boat commander, an ambitious second-in-command, a rule-bound destroyer captain, his more thrill-seeking Number 1, and the intrepid Bosanquet - finally emerge. Will anyone listen to Bosanquet when he discovers by accident the true and horrific nature of Armageddon? Will the U-boat commander regain control of his boat? Will the destroyer find the U-boat? Will Armageddon succeed? Praise for Richard Freeman: 'You can taste the salt and feel the danger. A fantastic read.' - Tom Kasey, best-selling author of Trade Off. Richard Freeman graduated in mathematics before following a career in distance education. He now writes on naval history. His other books include First Command, Midway, Pearl Harbor and Coral Sea 1942.

When Zambia became Independent in 1964, the white colonial population did not suddenly evaporate. Some had supported Independence, others had virulently opposed it, but all had to reappraise their nationality, residence and careers. A few became Zambian citizens and many more chose to stay while without committing themselves. But most of the colonial population eventually trickled out of the country to start again

elsewhere. Pamela Charmer-Smith has traced survivors of this population to discover how new lives were constructed and new perspectives generated. Her account draws on the power of postcolonial memory to understand the many ways that copper miners, district officers, school-children and housewives became the empires' relics. Her work is not that of a dispassionate outsider but of one who grew up in Northern Rhodesia, knew its colonial population and has considerable affection for Zambia.
