Yes or No? Victorian Secrets
"An extraordinary book which makes a vital contribution to our understanding of the potential power for healing and goodness in 'television entertainment'." Arlie Hochschild, author of *The Time Bind* (2001) "Despite the light title, this is a serious book about the healing possibilities of television. !

Provocative and enlightening." Beth Montemurro, Penn State University Can television be a positive force in society? Can socially conscious entertainment change the world? *Two Aspirins and Comedy* arrives at surprising and unconventional answers to these questions. Metta Spencer delves deep into the significance and power of entertainment as a means to influence society. She finds current examples of socially constructive television and demonstrates how mass entertainment can better use its power to positively influence society. In a climate where television is often a culprit for society's woes, Spencer casts a redemptive eye on the medium. She asserts that television, like other fictional landscapes, offers invaluable lessons, emotional bonding and catharsis for a modern society whose members are increasingly isolated.

from the Pentagon, the CIA, and other national security agencies, Simpson exposes secret government-funded research into psychological warfare and reveals that many of the most respected pioneers in the field of communication science were knowingly complicit as their findings were employed for the purposes of propaganda, subversion, intimidation, and counterinsurgency during the Cold War era. “An intriguing picture of the relations between state power and the intellectual community.” —Noam Chomsky, Massachusetts Institute of Technology

The Myth of Santa Fe Ignatius Press

A stunningly intimate exploration of the writer and gay cultural icon and of his lifelong search for authenticity. The story of Christopher Isherwood's life is one of pilgrimage: away from the constraints of inheritance and empire and toward authenticity and spiritual illumination.

Isherwood—the author of *Goodbye to Berlin*, which inspired *Cabaret*, and *A Single Man*—was born the heir to a crumbling English estate. He died an icon of gay liberation in California while his partner of thirty years, Don Bachardy, painted his death portrait. Isherwood began his career depicting the psychological wreckage of World War I. While living in Berlin, he began to write his reputation-making fiction and (with W. H. Auden) plays inspired by the city's nightlife, its artistic underbelly, its fevered politics. When Hitler took power, he fled with his German boyfriend, who was pursued and arrested by the Gestapo.

Isherwood left Europe and found

work as a screenwriter in Hollywood, where he became the disciple of a Hindu monk, Swami Prabhavananda. Together they translated the *Bhagavad Gita*. Isherwood shed his family ghosts and became a chief instigator of the cultural shift that made gay liberation possible. Every step of the journey served his writing; one of our greatest diarists, he recorded his experiences and transformed them in fiction and memoir. Katherine Bucknell charts the quest of the restless, penetrating, blackly comic mind through books, films, foreign lands, love affairs, and collaborations toward self-understanding and happiness. Here is Christopher Isherwood *Inside Out*.

Encyclopedia Penguin
A fascinating survey of the entire history of tall tales, folklore, and mythology in the United States from earliest times to the present, including stories and myths from the modern era that have become an essential part of

contemporary popular culture. Folklore has been a part of American culture for as long as humans have inhabited North America, and increasingly formed an intrinsic part of American culture as diverse peoples from Europe, Africa, Asia, and Oceania arrived. In modern times, folklore and tall tales experienced a rejuvenation with the emergence of urban legends and the growing popularity of science fiction and conspiracy theories, with mass media such as comic books, television, and films contributing to the retelling of old myths. This multi-volume encyclopedia will teach readers the central myths and legends that have formed American culture since its earliest years of settlement. Its entries provide a fascinating glimpse into the collective American imagination over the past 400 years through the stories that have shaped it. Organized alphabetically, the

coverage includes Native American creation myths, "tall tales" like George Washington chopping down his father's cherry tree and the adventures of "King of the Wild Frontier" Davy Crockett, through to today's "urban myths." Each entry explains the myth or legend and its importance and provides detailed information about the people and events involved. Each entry also includes a short bibliography that will direct students or interested general readers toward other sources for further investigation. Special attention is paid to African American folklore, Asian American folklore, and the folklore of other traditions that are often overlooked or marginalized in other studies of the topic. Companion to Literary Myths, Heroes and Archetypes Pantheon The first thorough examination of Isherwood's work and life in

twenty years, Izzo's analysis brings into play the Mortmere stories, by Isherwood and Edward Upward (dating from the 1920s but published only in 1994), and the Diaries, 1939-1960, published in 1996, to reposition Isherwood within a circle of British writers that included - besides Upward - W. H. Auden, Stephen Spender, and Cecil Day Lewis.

Narcissus, Medusa, Orpheus and Orestes are a few of the figures emerging in today's mystery fiction. Among the mystery authors discussed are Patricia Cornwell, Amanda Cross, Sue Grafton, P.D. James, Sara Paretsky and Julie Smith. Land of Stories 06 Worlds Collide Bloomsbury Publishing USA

Maine folklore is rich in tales of humans confronted by strange beasts, both wonderful and terrifying. The Abenaki, or "First People" had their tales of Glooskap and Pamola.

Other tales came with European settlers; and others sprang up almost out of nothing around the fires of the logging camps. Based on meticulous research into these legends and folk tales, this volume is an encyclopedia, a field guide to the creatures that can be found in Maine and beyond. While the tales are whimsical and fun, they can also be considered serious scholarship.

Faith, Race, and the Lost Cause

is a new history of Richmond 's famous St. Paul 's Episcopal Church, attended by Robert E. Lee and Jefferson Davis during the Civil War and a tourist magnet thereafter. Christopher Alan Graham 's narrative—which emerged out of St. Paul 's History and Reconciliation Initiative—charts the congregation 's theological and secular views of race from the church 's founding in 1845 to the present day, exploring the church 's complicity in Lost Cause narratives and racial oppression in Richmond. Graham investigates the ways that the actions of elite white southerners who imagined themselves as benevolent—liberal, even—in their treatment of Black people through the decades obscured the actual damage to Black bodies and souls that this ostensible liberalism caused. Placing the legacy of St. Paul 's self-described benevolent paternalism in dialogue with the racial and religious geography of Richmond, Graham reflects on what an authentic process of recognition

and reparations might be, drawing importance, contact stories useful lessons for America writ large.

Myth and Memory Amber Books Ltd

The moment of contact between two peoples, two alien societies, marks the opening of an epoch and the joining of histories. What if it had happened differently? The stories that indigenous peoples and Europeans tell about their first encounters with one another are enormously valuable historical records, but their relevance extends beyond the past. Settler populations and indigenous peoples the world over are engaged in negotiations over legitimacy, power, and rights. These struggles cannot be dissociated from written and oral accounts of "contact" moments, which not only shape our collective sense of history but also guide our understanding of current events. For all their

have not been systematically or critically evaluated as a genre. Myth and Memory explores the narratives of indigenous and newcomer populations from New Zealand and across North America, from the Lost Colony of Roanoke on the Atlantic seaboard of the United States to the Pacific Northwest and as far as Sitka, Alaska. It illustrates how indigenous and explorer accounts of the same meetings reflect fundamentally different systems of thought, and focuses on the cultural misunderstandings embedded in these stories. The contributors discuss the contemporary relevance, production, and performance of Aboriginal and European contact narratives, and introduce new tools for interpreting the genre. They argue that we are still in the contact zone, striving to understand the meaning of contact and the relationship

between indigenous and settler
populations.
