The Coastal Companion is a journey through the year in the Gulf of Maine and its watershed, which includes land from eastern Massachusetts to southwestern Nova Scotia. A chronicle of changes through the seasons both above and within the sea, Coastal Companion follows the arrival and departure of migrating shorebirds in spring and fall, schools of fish as they move in and out of our region, and the natural cycles of our bays, rivers, marshes, and coastal forests. Part field guide, part almanac, the book also highlights writers, artists, and scientists who have chosen the Gulf of Maine as their subject matter. Poems by twelve contemporary poets open each chapter, and illustrations by two Maine artists, Kimberleigh Martul-March and Margaret Campbell, are featured throughout the text. This is a book to keep close at hand, to be read not all at once, but through the seasons, one day at a time, and enjoyed year after ye

Lost on a Mountain in Maine Down East Books

When twelve-year-old Donn Fendler gets tired of waiting for his father and brothers to join him on the summit of Maine's highest peak, he decides to find his own way back to camp. But Donn doesn't count on a fast-moving fog that obscures the path. He doesn't count on falling down an embankment that hides him from sight. And he doesn't count on taking a turn that leaves him alone to wander aimlessly for nearly two weeks in the empty mountain wilderness.

The Maine Lobster Book Good Night Books

Everyone loves lobster - especially Maine lobster. This fun, fact filled book brings the reader on the lobster's journey from ocean floor to plate, stopping along the way to get to know the people and places of Maine's iconic industry.

Counting Our Way to Maine Random House Incorporated

Many people dream of escaping modern life, but most will never act on it. This is the remarkable true story of a man who lived alone in the woods of Maine for 27 years, making this dream a reality—not out of anger at the world, but simply because he preferred to live on his own. A New York Times bestseller In 1986, a shy and intelligent twenty-year-

old named Christopher Knight left his home in Massachusetts, drove to Maine, and disappeared into the forest. He would not have a conversation with another human being until nearly three decades later, when he was arrested for stealing food. Living in a tent even through brutal winters, he had survived by his wits and courage, developing ingenious ways to store edibles and water, and to avoid freezing to death. He broke into nearby cottages for food, clothing, reading material, and other provisions, taking only what he needed but terrifying a community never able to solve the mysterious burglaries. Based on extensive interviews with Knight himself, this is a vividly detailed account of his secluded life—why did he leave? what did he learn?—as well as the challenges he has faced since returning to the world. It is a gripping story of survival that asks fundamental questions about solitude, community, and what makes a good life, and a deeply moving portrait of a man who was determined to live his own way, and succeeded.

First published in 1995 by Orchard Books, this book takes one baby, two dogs, and three bicycles on a journey from the big city to Maine's seacoast. Objects packed for the trip and things seen along the way are all happily counted, finishing in a shining finale as the family tallies 20 fireflies found during their last evening in Maine.

Oslo, Maine Central Avenue Publishing

"This book will break your heart and heal it." - E.J. Levy, author of The Cape Doctor "If you ' re lucky enough to see a moose, chances are, it ' ll change your life." - Marcia Butler,

KenyonReview.org A pregnant moose walks into a rural Maine town called Oslo, looking for food and a place to deliver her calf. Just as when strangers run into each other on the street, the movement of the moose determines the fate of three families in the town as they grapple with trauma, marriage, ambition, and their fraught relationship with the natural world. Meet Pierre Roy, a brilliant twelve-year-old, who loses his memory in an accident. Then Claude Roy, Pierre ' s blustery and proud fourth-generation Maine father who cannot, or will not, acknowledge the too-real and frightening fact of his son ' s injury. And his wife, Celine, a once-upon-a-time traditional housewife and mother who descends into pills as a way of coping. Enter Sandra and Jim Kimbrough, musicians and recent Maine transplants who scrape together a meager living as performers while shoring up the loose ends by attempting to live off the grid. Finally, the wealthy widow "from away," Edna Sibley, whose dependent adult grandson is addicted to 1980 ' s Family Feud episodes. Their disparate backgrounds and views on life make for, at times, uneasy neighbors. But when Sandra begins to teach Pierre the violin, forces beyond their control converge. The boy discovers that through sound he can enter a world without pain from the past nor worry for the future. He becomes a preadolescent existentialist and invents an unconventional method to come to terms with his memory loss, all the while attempting to protect, and then forgive, those who ' ve failed him. Oslo, Maine is a character driven novel exploring class and economic disparity. It inspects the strengths and limitations of seven average yet extraordinary people as they reckon with their considerable collective failure around

Pierre ' s accident. Alliances unravel. Long held secrets are exposed. And throughout, the ever-present moose is the linchpin that drives this richly drawn story, filled with heartbreak and hope, to its unexpected conclusion. "(T)he flawed but deeply relatable characters in Butler's second novel ... exude an authentic sense of humanity, making this a sure-fire recommendation for Fredrik Backman fans." —Carol Haggas, Booklist A seductive, imaginative, and utterly unique story / an astute and compassionate foray into the intersecting lives of characters who are both ordinary and exceptional, saintly and deeply flawed." —Karen Dionne, #1 internationally bestselling author of *The Wicked Sister*

Nine Mile Bridge Arcadia Publishing

A couple set out on a bold and vigorous quest for independence and a more essential way of life on a Maine island

The Guest Book Knopf

Based on the true account of a boy's harrowing journey through the vast wilderness of the Katahdin Mountains, *Lost on a Mountain in Maine* is a gripping survival story for all ages. Twelve-year-old Donn Fendler steps away from his Boy Scout troop for only a minute, but in the foggy mountains of Maine, a minute is all it takes. After hours of trying to find his way back, a nervous and tired Donn falls down an embankment, making it impossible for him to be found. One sleepless night goes by, followed by a second . . . and before Donn knows it, almost two weeks have passed, leaving him starving, scared, and delirious. With rainstorms, black bears, and his fear of being lost forever, Donn's journey is a physically, mentally, and emotionally charged story told from the point of view of the boy who lived it. Don't miss this thrilling survival story, a proven high-interest winner that pulls in readers the way *Hatchet*, *My Side of the Mountain*, and the *I Survived* books do.

Maine Register, State Year-book and Legislative Manual Harper Collins

The naturalist recounts his experience spending a year isolated in a crudely built cabin, where he studied the surrounding wildlife and pondered life's questions

Maine Farm Flatiron Books

My Life in the Maine Woods recounts Annette Jackson ' s North Woods experiences during the 1930s when she, her husband and their children lived in a small cabin on the shore of Umsaskis Lake. Jackson, an avid sportswoman and nature lover, writes of hunting, fishing, campfire cooking, and the sounds of the wilderness through the seasons. She visits trappers and woodsmen, and tells what it ' s like to sleep on a bed of pine boughs under the stars that shine on the legendary Allagash.

[Maine Paradise: Mount Desert Island and Acadia National Park](#) Rizzoli Publications

In this critically acclaimed Maine classic, first published in 1945, Helen Hamlin writes of her adventures teaching school at a remote Maine lumber camp and then of living deep in the Maine wilderness with her game warden husband. Her experiences are a must-read for anyone who loves the untamed nature and wondrous beauty of Maine's north woods and the unique spirit of those who lived there. In the 1930s, in spite of being warned that remote Churchill Depot was "no place for a woman," the remarkable Helen Hamlin set off at age twenty to teach school at the isolated lumber camp at the headwaters of the Allagash River. She eventually married a game warden and moved deeper into the wilderness. In her book, Hamlin captures that time in her life, complete with the trappers, foresters, lumbermen, woods folk, wild animals, and natural splendor that she found at Umsaskis Lake and then at Nine Mile Bridge on the St. John River.

[The Changing Nature of the Maine Woods](#) W. W. Norton & Company

As a physicist, Alan Lightman has always held a scientific view of the world. But one summer evening, while looking at the stars from a small boat at sea, Lightman was overcome by the overwhelming sensation that he was merging with something larger than himself—an eternal unity, something absolute and immaterial. The result is an inspired, lyrical meditation from the acclaimed author of *Einstein's Dreams* that explores these seemingly contradictory impulses. Lightman draws on sources ranging from Saint Augustine's conception of absolute truth to Einstein's theory of relativity, and gives us a profound inquiry into the human desire for truth and meaning, and a journey along the different paths of religion and science that become part of that quest. This small but provocative book explores the tension between our yearning for certainty and permanence versus the modern scientific view that all things in the physical world are uncertain and impermanent.

*Includes pictures *Includes accounts of the explosion by the captain and surviving crew members *Includes a bibliography for further reading "Remember the Maine, to Hell with Spain!" The USS Maine is one of the most famous ships in American history, but for all the wrong reasons. A symbol of naval strength in the late 19th century, the Maine's tragic fate is taught to students across the nation, not just because it was a disaster but because it is associated with the most notorious examples of yellow journalism in the country's history and ultimately brought about a war, despite the fact it's still unclear what caused the ship's explosion. In 1898, one of Spain's last possessions in the New World, Cuba, was waging a war for independence against Spain. Though Cuba was technically exempted from the United States' Monroe Doctrine since Cuba was already a possession of Spain when the Monroe Doctrine was issued, many Americans believed that the United States should side with Cuba against Spain. At the same time, however, President William McKinley wanted to avoid getting tangled in a war between outsiders, while Spain also wanted to avoid any conflict with United States and its powerful navy. Despite leaders hoping to stay above the fray, American economic interests were being harmed by the ongoing conflict between Cuban nationalists and Spain, as merchants' trading with Cuba was suffering now that the island was undergoing conflict. Furthermore, the American press capitalized on the ongoing Cuban struggle for independence, which had been flaring up time and again since 1868. In an effort to sell papers, the press frequently sensationalized stories, which came to be known as yellow journalism, and during the run-up to war, yellow journalism spread false stories about the Cuban conflict in order to sell newspapers in the competitive New York City market. Despite President McKinley's wishes to avoid a war, he was forced to support a war with Spain after the USS Maine suffered an explosion in Havana's harbor in February 1898. McKinley had sent the ship to help protect American citizens in Cuba from the violence that was taking place there, but the explosion devastated the USS Maine, which had to be towed to harbor and eventually scuttled, but only after 266 American sailors aboard the ship were killed. Although the cause of the explosion was never determined, yellow journalists in the American press blamed Spain, claiming the USS Maine was sabotaged. President McKinley was unable to resist popular pressure after a U.S. Navy report also claimed that the ship had been subjected to an explosion outside of its hull, which subsequently ignited its powder magazines inside the ship. Later investigations proved inconclusive, but President McKinley was now forced to accept war with Spain, bringing about the Spanish-American War. The Explosion of the USS Maine chronicles the controversial explosion, tracing the history of the ship from its glorious beginning to its ignominious end, as well as the critical aftermath. Along with pictures of important people, places, and events, you will learn about the USS Maine like never before, in no time at all.
