The Airbus A320 family

consists of short- to

medium-range, narrow-

body, commercial

passenger jet airliners

manufactured by Airbus.

The family includes the A318, A319, A320 and A321, and the ACJ business jet. The aircraft family can accommodate up to 220 passengers and has a range of 3,100 to 12,000 km (1,700 to 6,500 nmi), depending on model.

Airbusdriver.net

The A320 Study Guide was created by a need to produce one document with all the information required to learn the basics of the A320 systems, limitations and the associated failures all in one place. There are many other great products or documents that go into the technical aspects in far greater detail than ours, however sometimes this can be a bit of an overload of information.
