This new and updated edition of Understanding Naval Warfare offers the reader an accessible introduction to the study of modern naval warfare, providing a thorough grounding in the vocabulary, concepts, issues, and debates, set within the context of relevant history. Navies operate in an environment that most people do not understand and that many avoid. They are equipped with a bewildering range of ships, craft and other vessels and types of equipment, the purpose of which is often unclear. Writings on naval warfare are usually replete with references to esoteric concepts explained in specialist language than can serve as a barrier to understanding. The objective of this book, therefore, is to cut through the obscure and the arcane to offer a clear, coherent and accessible guide to the key features of naval warfare which will equip the reader with the knowledge and understanding necessary for a sophisticated engagement with the subject. This second edition is divided into two key parts. The first focuses on concepts of naval warfare and introduces readers to the ideas associated with the theory and practice of naval operations. It also includes a new chapter in which the history of the last century of naval warfare is explored in order to illustrate the key concepts. The second part focuses on the conduct of war at sea and on peacetime roles for contemporary navies. This latter section concludes with a chapter that looks ahead to the likely future of naval warfare. This

textbook will be essential reading for students of naval warfare, sea power and maritime security, and highly recommended for those studying military history, strategic studies and security studies in general.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for

group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Research into the effects on mental health of both work and unemployment has been extensive, but it remains scattered and unintegrated. This book examines comprehensively what is known, setting it in

an original and logical conceptual framework. I came face to face with the realization that there are gigantic bureaucracies that exist primarily for the sole purpose of prolonging their existence, that the very structure of bureaucracy rewards inefficiency and encourages territorialism and turf warfare."

The purpose of this book is to summarise the state of the science in the study of stress and burnout among health care professionals. Moreover, this book seeks to set the agenda for future research in the areas of stress and burnout. Despite the popularity of these topics as subjects for empirical study, particularly among health professionals, there has been no attempt to build a comprehensive summary of the literature concerning stress and burnout in health care. This book fills the void by bringing together leaders in the academic study of stress and burnout and by summarising the research on the measurement of stress and burnout, the unique causes of this condition for health care professionals as well as the consequences of stress and burnout and the patients they serve. It covers evidence-based mechanisms for the prevention and reduction of stress and burnout. Each chapter provides a synthesis of the critical stress and burnout literature as well as ideas for what research is needed to fill current voids in the literature. Final chapter of the book provides a research agenda to promote research concerning this phenomenon in health professions.

"As I write this, I'm sitting in a restaurant in a major U.S. airport, eating my breakfast with a plastic knife and fork. I worked up quite an appetite getting here two hours early and shuffling in the block-long lines until I got to the security checkpoint where I could take off my shoes, remove my belt, and put my carry-on luggage through the screening system. "What's going on? It's homeland security. Welcome to the new age of knee-jerk security at any price. Well, I've paid, and you've paid, and we'll all keep paying-but is it going to help? Have we embarked on a massive multibillion-dollar boondoggle that's going to do nothing more than make us feel more secure? Are we paying nosebleed prices for "feel-good" measures? . "This book was painful to write. By nature, I am a problem solver.

Professionally I have made my career out of solving complex problems efficiently by trying to find the right place to push hard and make a difference. Researching the Department of Homeland Security, the FBI, CIA, INS, the PATRIOT Act, and so forth, one falls into a rabbit's hole of interdependent

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.
