"[A] superb history.... In these thrilling, highly readable pages, we meet Rasputin, the shaggy, lecherous mystic...; we visit the gilded ballrooms of the doomed aristocracy; and we pause in the sickroom of little Alexei, the hemophiliac heir who, with his parents and four sisters, would be

murdered by the Bolsheviks in 1918."

—The Wall Street Journal Here is the tumultuous, heartrending, true story of the Romanovs—at once an intimate portrait of Russia's last royal family and a gripping account of its undoing. Using captivating photos and compelling first person accounts, award-winning author Candace Fleming (*Amelia Lost*; *The Lincolns*) deftly maneuvers between the imperial family's extravagant lives and the plight of Russia's poor masses, making this an utterly mesmerizing read as well as a perfect resource for meeting Common Core standards. "An exhilarating narrative history of a doomed and clueless family and empire." —Jim Murphy, author of Newbery Honor Books *An American Plague* and *The Great Fire* "For readers who regard history as dull, Fleming's extraordinary book is proof positive that, on the contrary, it is endlessly fascinating, absorbing as any novel, and the stuff of an altogether memorable reading experience." —Booklist, Starred "Marrying the intimate family portrait of Heiligman's *Charles and Emma* with the politics and intrigue of Sheinkin's *Bomb*, Fleming has outdone herself with this

riveting work of narrative nonfiction that appeals to the imagination as much as the intellect." —The Horn Book, Starred Winner of the Los Angeles Times Book Prize for Young Adult Literature Winner of the Boston Globe–Horn Book Award for Nonfiction A Robert F. The Historical Dictionary of Yukaghir has two main purposes. First, it is intended as a relatively complete source of information on the lexicon of Yukaghir. Tundra and Kolyma Yukaghir are closely related, highly endangered languages spoken in the extreme North-East of Siberia. No modern comprehensive lexicographic description of these languages is available for the international linguistic community. The dictionary presents all known varieties of Yukaghir in comparative format. Some of the materials included come from published sources, others were obtained by the author through fieldwork and are published for the first time. The dictionary also contains examples of now extinct early forms of Yukaghir,

which began to be recorded in the late 17th century. Second, the dictionary provides a first reconstruction of the common ancestor of all known Yukaghir varieties. The proto-Yukaghir stems are established based on internal reconstruction, comparison between various Yukaghir idioms, and external data. Although the dictionary does not attempt to provide etymologies for all Yukaghir words, it includes possible cognates of some Yukaghir stems from other languages, mainly Uralic and Altaic. Since Yukaghir forms are not only cited in their modern shape but are reconstructed, the dictionary will provide a foundation for future etymological work and contribute to investigating the genetic affiliation of Yukaghir, usually classified as isolated. The book will also be useful for linguists interested in the distant genetic relations between language families and the reconstruction of the ethnic and linguistic situation in prehistoric northern Asia.

Soonie's great-grandma was just seven years old when she was sold to a big plantation without her ma and pa, and with only some fabric and needles to call her own. She pieced together bright patches with names like North Star and Crossroads, patches with secret meanings made into quilts called Show Ways -- maps for slaves to follow to freedom. When she grew up and had a little girl, she passed on this knowledge. And generations later, Soonie -- who was born free -- taught her own daughter how to sew beautiful quilts to be sold at market and how to read. From slavery to freedom, through segregation, freedom marches and the fight for literacy, the tradition they called Show Way has been passed down by the women in Jacqueline Woodson's family as a way to remember the past and celebrate the possibilities of the future. Beautifully rendered in Hudson Talbott's luminous art, this moving, lyrical account pays

tribute to women whose strength and knowledge illuminate their daughters' lives.

Glimpses of Old Bombay and Western India, with Other Papers Macmillan

The central Gujarat region of western India is home to the entrepreneurial landowning Patel caste who have leveraged their rural dominance to become a powerful global diaspora of merchants, industrialists, and professionals. Investigating the Patels' intriguing ascent, Vinay Gidwani analyzes its broad implications for the nature of labor and capital worldwide. With the Patels as his central case, Gidwani interrogates established concepts of value, development, and the relationship between capital and history.

Capitalism, he argues, is not a frame of economic organization based on the smooth, consistent operation of a series of laws, but rather an assemblage of contingent and interrupted logics stitched together into the appearance of a *deus ex machina*. Following this line of thinking, Gidwani points to ways in which political economy might be freed of its lingering Eurocentrism, raises questions about the adequacy of postcolonial studies' critique of Marx and capitalism, and opens the possibility of situating capitalism as a geographically uneven social formation in which different

normative or value-creating practices are imperfectly sutured together in ways that can equally impair and enable profit and accumulation. Both theoretically astute and empirically informed, *Capital, Interrupted* unsettles entrenched understandings of staple concepts within the human sciences such as hegemony, governmentality, caste, and agency and, ultimately, does nothing less than rethink the very constitution of capitalism. Vinay Gidwani is associate professor of geography and global studies at the University of Minnesota.

Dear Jamshed, America is not so different from what we thought. I told you I wouldn't see a single cowboy riding across the plain, and I haven't. I have not even seen a plain. Still, there are some silver linings. They are: Trapper and King, the cat and dog who live in the apartment building. They are cuddly and waggy. I am not allowed to play with them, though, because they are supposed to catch mice and keep burglars away. Ironman. He owns a pig and talks to me a lot. But he is a grown-up. Kids.
