Business Communities of India Scholastic Inc. "A bit like the great movie Toy Story and a bit like the wonderful Kate DiCamillo book The Miraculous Journey of Edward Tulane. This is a great family book." —The Washington Post

Here is the first book in the highly acclaimed Toys trilogy, which includes the companion books Toy Dance Party and Toys Come Home and chronicles the unforgettable adventures of three brave and loving toys. In these six linked stories from Emily Jenkins, and illustrated by Caldecott Medal

winner Paul O. Zelinsky, readers will meet three extraordinary friends. Lumphy is a stuffed buffalo. StingRay is a stuffed stingray. And Plastic... well, Plastic isn't quite sure what she is. They all belong to the Little Girl who lives on the high bed with the fluffy pillows. A very nice person to belong to. Together is best for these three best friends. Together they look things up in the dictionary, explore the basement, and argue about the meaning of life. And together they face dogs, school, television commercials, the vastness of the sea, and the terrifying bigness of the washing machine. A Parents' Choice Silver Honor Winner, an ALA-ALSC Notable

The Historical Dictionary of Yukaghir has two main purposes. First, it is intended as a relatively complete source of information on the lexicon of Yukaghir. Tundra and Kolyma Yukaghir are closely related, highly endangered languages spoken in the extreme North-East of Siberia. No modern comprehensive lexicographic description of these languages is available for the

international linguistic community. The dictionary presents all known varieties of Yukaghir in comparative format. Some of the materials included come from published sources, others were obtained by the author through fieldwork and are published for the first time. The dictionary also contains examples of now extinct early forms of Yukaghir, which began to be recorded in the late 17th century. Second, the dictionary provides a first reconstruction of the common ancestor of all known Yukaghir varieties. The proto-

Yukaghir stems are established based on internal reconstruction, comparison between various Yukaghir idioms, and external data. Although the dictionary does not attempt to provide etymologies for all Yukaghir words, it includes possible cognates of some Yukaghir stems from other languages, mainly Uralic and Altaic. Since Yukaghir forms are not only cited in their modern shape but are reconstructed, the dictionary will provide a foundation for future etymological work and contribute to investigating the genetic affiliation of

Yukaghir, usually classified as isolated. The book will also be useful for linguists interested in the distant genetic relations between language families and the reconstruction of the ethnic and linguistic situation in prehistoric northern Asia.

The Fifth Of March

The central Gujarat region of western India is home to the entrepreneurial landowning Patel caste who have leveraged their rural dominance to become a powerful global diaspora of merchants, industrialists, and professionals.

Investigating the Patels' intriguing ascent, Vinay Gidwani analyzes its broad implications for the nature of labor and capital worldwide. With the Patels as his central case, Gidwani interrogates established concepts of value, development, and the relationship between capital and history. Capitalism, he argues, is not a frame of economic organization based on the smooth, consistent operation of a series of laws, but rather an assemblage of contingent and interrupted logics stitched together into the appearance of a *deus ex*

machina. Following this line of thinking, Gidwani points to ways in which political economy might be freed of its lingering Eurocentrism, raises questions about the adequacy of postcolonial studies' critique of Marx and capitalism, and opens the possibility of situating capitalism as a geographically uneven social formation in which different normative or value-creating practices are imperfectly sutured together in ways that can equally impair and enable profit and accumulation. Both theoretically astute

and empirically informed, Capital, Interrupted unsettles encrusted understandings of staple concepts within the human sciences such as hegemony, governmentality, caste, and agency and, ultimately, does nothing less than rethink the very constitution of capitalism. Vinay Gidwani is associate professor of geography and global studies at the University of Minnesota.
