DELUSIONAL POLITICS. JP Medical Ltd
Ever since the term "millennial" was created, media has tried to figure out how to capture the lives and struggles of this young but aging generation. Too often, those terrible attempts at capturing millennial life are condescending and nowhere near accurate - until now. Dear Reader is the first novel to capture millennial life. Ben has given his entire heart to the city of Seattle. Everything he chooses to know or ever wanted to be are held within the city limits. But as Ben learns more about himself, the city he loves starts to no longer feel like home. Addressing the reader directly, Ben stumbles through the Emerald City,

confessing his guilt, confusion, and hope. Dear Reader, get ready to understand what it means to be part of a misunderstood generation.

Prepared on curriculum-based classroom content for CBSE/ICSE/Board of Secondary Education of all the states, Mathematics, Physics, Chemistry and Biology are covered in this single edition, Exhaustive range of questions that stimulate and test the student's knowledge, Solutions and explanations for challenging questions. Suitable for all National / State Level talent Search Examinations Scholarship exams and Olympiad exams like NSTSE, SLSTSE, Science Olympiad, Maths Olympiad, NTSE etc.

Objective NCERT Xtract

Chemistry for NEET/ JEE Main, Class 11/ 12, AIIMS, BITSAT, JIPMER, JEE Advanced 4th

Edition Arihant Publications India limited

The 4th Edition of the book Objective NCERT Xtract -Chemistry for NEET/ JEE Main, Class 11 & 12, AIIMS, BITSAT consists of Quality Selected MCQs as per current NCERT syllabus covering the entire syllabus of 11th and 12th standard. The most highlighting feature of the

book is the inclusion of a lot of new questions created exactly on the pattern of NCERT. • This book-cum-Question Bank spans through 30 chapters. • The book provides a detailed 2 page Concept Map for Quick Revision of the chapter. • This is followed by 3 types of objective exercises: 1. Topic-wise Concept Based MCQs 2. NCERT Exemplar & Past JEE Main, BITSAT, NEET & AIIMS Questions 3. 15-20 Challenging Questions in Try If You Can Exercise • Detailed explanations have been provided for all typical MCQs that need conceptual clarity. • The book also includes 5 Mock Tests for Self Assessment. This book assures complete syllabus coverage by means of questions for more or less all significant concepts of Chemistry. In nutshell this

book will act as the BEST PRACTICE & REVISION MATERIAL for all PMT/ PET entrance exams.

The second edition of the book continues to offer a range of pedagogical features maintaining the balanced approach of the text. The attempts have been made to further strengthen the

conceptual understanding by introducing more ideas and a number of solved problems. Comprehensive in approach, this text presents a rigorous treatment of organic chemistry to enable undergraduate students to learn the subject in a clear, direct, easily understandable and logical manner. Presented in a new and exciting way, the goal of this book is to make the study of organic chemistry as stimulating, interesting, and relevant as possible. Beginning with the structures and properties of molecules, IUPAC nomenclature, stereochemistry, and mechanisms of organic reactions, proceeding next to detailed treatment of chemistry of hydrocarbons and functional groups, then to organometallic compounds and oxidation-reduction reactions, and ending with a study of selected topics (such as heterocyclic compounds, carbohydrates, amino acids,

peptides and proteins, drugs and alkaloids, steroids along with pesticides, dyes, synthetic polymers and spectroscopy), the book narrates a cohesive story about organic chemistry. Transitions between topics are smooth, explanations are lucid, and tie-ins to earlier material are frequent to maintain continuity. The book contains over 500 solved problems from simple to really challenging ones with suitable explanations. In addition, over 275 examples and solved problems on IUPAC nomenclature, with varying levels of difficulty, are included. About Some Key Features of the Book • EXPLORE MORE: Four sets of solved problems provide in-depth knowledge and enhanced understanding of some important aspects of organic chemistry. • MINI ESSAYS: Three small essays present interesting write-ups to provide students with introductory knowledge of chemistry of natural products such as lipids, terpenes,

nucleic acids and enzymes. • NOTABILIA: Twenty-two 'notabilia boxes' interspersed throughout the text highlight the key aspects of related topics, varying from concepts of chemistry to the chemistry related to day-to-day life. • STRUCTURES AND MECHANISMS NOT IN ORDER: Cites examples of common errors made by students while drawing structural formulae and displaying arrows in reaction mechanisms and helps them to improve on language of organic chemistry by teaching appropriate drawings and their significance. • GLOSSARY: Includes 'Name reactions', 'Reagents', and some important terms for quick revision by students. Clearly written and logically organized, the authors have endeavoured to make this complex and important branch of science as easy as possible for students to learn from and for teachers to teach

from.

Making a Difference: A Story of Adventure, Disaster, and Redemption Inspired by the Plight of At-Risk Girls demonstrates to students across various disciplines that they can assume leadership positions that positively impact communities, organizations, and the world, regardless of their interests, abilities, and career goals. Through personal accounts, Jeffrey A. Kottler and Sara Safari share how they conquered a mountain for a cause, found strength in the

service of others in the aftermath of a catastrophic earthquake, and overcame personal and professional obstacles to begin a movement that protects children against abuse and victimization. The text focuses on the plight of children, especially girls, who have been systematically oppressed, but the lessons highlighted throughout are applicable to a variety of other situations and contexts. Readers learn the gifts and privileges of serving others, as well as the difficult realities of this type of work. Kottler and Safari's story guides students through the mistakes, breakthroughs, successes, and failures inherent in ventures of transformative community service. Making a Difference is an ideal supplementary text for courses in social justice, advocacy, leadership, women's studies, gender studies, sociology, social work, and counseling. Jeffrey A. Kottler is one of the most prominent authors in the fields of counseling, psychotherapy, health, and education, having written over 100 books across a broad range of topics. He is a clinical professor

in the Menninger Department of Psychiatry and Behavioral Science at the Baylor College of Medicine in Houston and professor emeritus of counseling at California State University, Fullerton. He has served as a counselor, therapist, supervisor, educator, and social justice advocate in a variety of professional settings throughout his career. Sara Safari is an author, speaker, mountain climber, advocate for women's empowerment, and board member of Empower Nepali Girls. In 2015, she received the prestigious Global Citizen Award from the United Nations in recognition of her humanitarian work with Nepali girls and her continued efforts to end human trafficking. She's also received an award for Outstanding Practice with Broad Impact in the area of women and leadership from International Leadership Association. Sara will be the first Iranian in history to climb the Seven Summits, the seven highest peaks in each continent by July 2020. She is climbing on behalf of women worldwide who don't have the opportunity to live their lives fully expressed and on

their own terms.

The Universal Declaration of Human Rights guarantees all the world's people the right to life, liberty, protection against cruelty and torture, and equal justice before the

law. So why, then, is our world so broken? In the Beauty of Their Dreams follows the story of three extraordinary women leaders and long-time friends who use their power to say "enough." Enough of the abuse and exploitation of the weak and helpless by the rich and powerful. Enough of the ruthless power-mongering that destroys the lives of ordinary people. With the world on the edge of revolutionary change, a shocking act of violence catapults Olivia Newman reluctantly into the role of Prime Minister. There, she is thrown into the bare-knuckle world of macho governing. Her crusading daughter, Sarah, opens her mother's eyes to the urgent need for change, and a radical plan to put the world's future into women's hands. In the Beauty of Their

Dreams is a page-turning novel that looks ahead to a woman-led revolution that is much more than just a utopian dream. "In the long history of humankind (and animal kind, too) those who learned to collaborate and improvise most effectively have prevailed." - Charles Darwin

1. 'Skill in Mathematics' series is prepared for JEE Main and Advanced papers 2. It is a highly recommended textbook to develop a strong grounding in Algebra 3. The book covers the entire syllabus into 11 chapters 4. Each chapter includes a wide range of questions that are asked in the examinations Good foundational grip is required in the Algebraic Methods, while you are preparing for JEE Mains & Advanced or any other engineering. Bringing up the

series "Skills in Mathematics for JEE Main & Advanced for Algebra" that is carefully revised with the sessionwise theory and exercise; to help candidates to learn & tackle the mathematical problems. The book has 11 Chapters covering the whole syllabus for the JEE Mains and Advanced as prescribed. Each chapter is divided into sessions giving complete clarity to concepts. Apart from sessionwise theory, JEE Type examples and Chapter Exercise contain a huge amount of questions that are provided in every chapter under Practice Part. Prepared under great expertise, it is a highly recommended textbook to develop a strong grounding in Algebra to perform best in JEE and various engineering entrances. TOC: Complex Numbers, Theory of Equations, Sequences and Series, Logarithms and Their Properties, Permutations and Combinations, Binomial Theorems, Determinants, Matrices, Probability, Mathematical Inductions, Sets, Relations and Functions.
