**Human Biology** Brooks/Cole Publishing Company  
Designed to help students prepare for the Western Australian Certificate of Education (WACE). Solutions are supplied at the end.  
**Coursecompass Student Access Kit for Human Biology** College le Overruns  
Should there be warning labels on fast foods? Should SUV drivers pay extra taxes? Should employers be allowed to require drug testing of prospective employees? This introductory biology text helps you master biology while encouraging you to think about critical issues. The issues-oriented approach enlivens the subject matter and helps you grasp concepts by making connections between biology and real-life concerns. Here's how it works: An "Impacts, Issues" case study opens each chapter, focusing on a biology-related societal issue. You also view a short film that expands on the issue. Then each chapter's "How Would You Vote?" question, inspired by the case study, asks you to consider biology-related news, explore the facts behind the issue, apply your knowledge of biology, and cast a vote on the Web. You can also see state and nationwide voting tallies. This book has been widely praised for clear and engaging writing, art with step-by-step callouts, and terrific support from student media that all work together to help you "get" biology. Technology highlights include CengageNOW, an interactive online resource featuring personalized study plans and hundreds of animations, and an MP3 download of audio study tools that let you review concepts from the text anywhere!  
*Human Biology* Addison-Wesley Educational Publishers  
WACE study guide, Western Australian Certificate of Education, Year 12 exams, University entrance exam.

*Advanced Level Human Biology* Addison-Wesley  
Students can master key concepts and earn a better grade with the helpful study tools found in the study guide. Each chapter includes a chapter summary, key concepts, fill-in-the-blank questions, labeling exercises, crossword puzzles, true/false questions, table completion exercises, quizzes and tests to help students understand the material and test their knowledge.  
Human Biology: Student Study Guide Cengage Learning  
Preface to study guide: "...written to assist students taking nonmajors Biology 101, Topics in Contemporary Biology."

**Human Biology** McGraw-Hill Science, Engineering & Mathematics  
\* by Judith Stewart, Community College of Southern Nevada \* Designed specifically for the one-semester human biology course. Contains useful chapter reviews, practice questions, and self-testing activities.  
Laboratory Manual for Human Biology Richmond, B.C. : Open Learning Institute  
This four-color lab manual contains 21 lab exercises, most of which can be completed within two hours and require minimal input from the instructor. To provide flexibility, instructors can vary the length of most exercises, many of which are divided into several parts, by deleting portions of the procedure without sacrificing the overall purpose of the experiment. Taking a consistent approach to each exercise, the second edition provides an even clearer presentation, updated coverage, and increased visual support to enable students to apply concepts from the Human Biology course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*Creelman Exam Questions* Benjamin-Cummings Publishing Company  
Asks the student to write all answers in this study guide/workbook. This workbook is interactive because it requires students to do things instead of just read more material. All questions are arranged by chapter modules so students may skip unassigned material. Each module in the study guide refers to the page numbers of the corresponding module in the text. There is a wide variety of questions: multiple-choice questions; tables to be filled in; art to be labeled; true/false questions requiring students to write the correct answer if the statement is false; thought-provoking conceptual questions; boldfaced terms requiring a written definition; list of objectives in fill-in-the-blank format; and other types of questions.  
*Advanced Level Human Biology*  
Designed specifically for the one-semester human biology course. Contains traditional chapter review and self-testing activities.  
*WACE Human Biology 3&4 Complete Course Notes*
