The Ring and the Book, published serially in 1868-9, is one of the most daring and innovative poems in the English language. The story is based on the trial of an Italian nobleman, Guido Franceschini, for the murder of his wife Pompilia in Rome in 1698. Browning's discovery of the 'old yellow book', a bundle of legal documents and letters relating to the trial, on a second-hand market stall in Florence, sparked an imaginative engagement with this sordid tale of domestic cruelty, adultery, and greed which grew, through four years of arduous labour, into an epic peopled not by gods and warriors but by concrete,

recognisably human beings. Fusing the technique of the dramatic monologue, the form he had made his own, with the grandeur of classical epic and the vivid realism of the modern novel, Browning created a unique hybrid form that allowed him not only to bring to life an entire historical period but also to reflect on the process of artistic creation itself – the forging of the golden ‘ring’ of the poem from the ‘pure crude fact’ of its historical original. This edition, comprising volumes 5 and 6 in the acclaimed Longman Annotated English Poets edition of Browning’s poems, does full justice to the scope and depth of Browning’s achievement. The headnote in volume 5 gives an authoritative account of the poem’s composition, publication, sources, and reception, making use of hitherto unpublished letters and textual material. In addition to giving readers help, where needed, with historical and linguistic comprehension, the notes track Browning’s formidable range of allusion, from the most erudite to the most vulgar. The appendices in volume 6 present a selection from the original sources, a list of variants from extant proofs, and key passages from

Browning’s fascinating and revealing correspondence with one of the earliest readers of the poem, Julia Wedgwood. The aim is to enable readers not just to understand the poem as an object of study, but to take pleasure in its abounding intellectual and emotional energies.

Heresy and the Ideal is a powerful collection of essays and essay-reviews which David Baker wrote and published throughout the 1990s. He thoroughly discusses the work of more than fifty contemporary poets, including T. R. Hummer, Miller Williams, Albert Goldbarth, Jane Kenyon, Galway Kinnell, Charles Simic, Ted Kooser, David Wojahn, Alice Fulton, Louise Glück, and Charles Wright. He takes as his models some of the great critical books of the past three decades, especially Richard Howard’s masterpiece, *Alone with America*, and Helen Vendler’s *Part of Nature, Part of Us*, as well as other works by Laurence Lieberman, Majorie Perloff, Carol Muske, and Mary Kinzie. At its center, *Heresy and the Ideal* is based on Baker’s sense of Romantic poetics, especially on how contemporary poets have applied, altered, or rejected certain Romantic principles. He uses the Romantic trope to measure the tension between passion and reason and between the problems of literary transcendence and the obligations of social engagement. The result is a welcome variety of enlightening, practical criticism devoid of exclusionary jargon and based on

persistent attention to an individual poem or book of poems. Utilizing the essay-review, Baker considers each poet's purposes and achievements. He blends the strategies of explanation, analysis, and evaluation, clarifying each poet's work instead of complaining or condemning. *Heresy and the Ideal* addresses a wide and diverse range of contemporary poetry and should take a deserved place both as a critical introduction to the work of many important poets and as a work that documents and explores the shape of poetry at the end of the millennium.
